## **Problems Of Communitarian Politics Unity And Conflict:**

The Problems of Communitarian Politics Elizabeth Frazer, 1999-10-28 The book offers a detailed critical analysis of the ideal of community in politics The book traces elements of the idea of community in a number of social and philosophical contests over the last century explaining how these are articulated in very recent political and public policy debates Community is invoked as a justification for re organisation of state institutions as the source of care and support for individuals and as an entity which is valuable in its own right and needs itself to be sustained and defended In community development community action community care and community politics the tensions and contradictions within the concept are often invariably felt community is both inclusive and exclusive both organised and unstructured and both hierarchical and egalitarian The book argues that analyses of the concept of community shows the role of ideas and ideals in shaping political actions the barriers to the realization of community in practical contexts and ultimately the untenability of the ideal itself *The Problems of Communitarian Politics* ,1999 Handbuch Kommunitarismus Walter Reese-Schäfer, 2019-11-11

This volume describes and analyzes alternative and emerging models of non territorial autonomy NTA particularly in relation to decentralization The authors push the NTA debate in new directions by offering a reconceptualization based on ethno cultural bottom up decentralized action that redefines autonomy into its true sense of autonomous action Through description critical analysis and evaluation of several case studies this book assesses the potential for new paradigms within decentralized systems The authors explore two approaches to political decentralization which add to the theoretical debate on NTA network governance which focuses on new dynamics in policy processes and normative pluralism which focuses on accommodating the distinctness of the groups through the subsidiarity principle with regard to their own affairs The book explores the potential ramifications of ethno cultural NTA institutions acting within the wider framework of state institutions and assesses the functions of these institutions as another dimension of decentralization and thus another layer of democracy

With contemporary examples from Europe the Middle East Asia and South Africa as well as theoretical aspects of the conceptualization of autonomy this book offers a truly global perspective It will be of great interest to policy makers in countries experiencing adverse developments due to the pressure on public management as well as advanced students and scholars questioning the ability of the Westphalian system to address cultural diversity **Contemporary Political**

Demetriou,Laurie M. Johnson,2016-08-03 After a century long hiatus honor is back Academics pundits and everyday citizens alike are rediscovering the importance of this ancient and powerful human motive This volume brings together some of the foremost researchers of honor to debate honor s meaning and its compatibility with liberalism democracy and modernity Contributors representing philosophy sociology political science history psychology leadership studies and military science examine honor past to present from masculine and feminine perspectives and in North American European and African contexts Topics include the role of honor in the modern military the effects of honor on our notions of the dignity and purity of women honor as a quality of good statesmen and citizens honor s role in international relations and community norms and how honor s egalitarian and elitist aspects intersect with democratic and liberal regimes *Communitarianism in Law and Society* Paul Van Seters,2006-04-18 In this new collection of essays Paul van Seters brings together an international group of scholars from diverse academic backgrounds to reflect upon the remarkable rise of communitarianism in contemporary studies of law and society Taking account of the intricate relationship between law and communitarianism these essays critically assess the communitarian perspective in order to gain a more systematic insight into its distinctive constraints and the special opportunities it provides At its core this work contends that law necessarily presupposes community but also essentially extends it Arguing that communitarianism must be understood as an effort to reconstruct liberalism and not just debunk it *Communitarianism in Law and Society* explores what good is to come of this movement for legal theory and practice *International Statebuilding in West Africa* Abu Bakarr Bah,Nikolas Emmanuel,2024-08-06 At the turn of the

twenty first century manipulation of the democratic process coupled with preexisting political and economic grievances led to years long civil wars in Sierra Leone Liberia and C te d Ivoire During and after these conflicts international peacekeeping efforts and humanitarian intervention became the dominant paths for restoring stability by rebuilding the state Using these

three countries as case studies this manuscript sheds light on internationally driven state building in war torn West African nations the problematic nature of the postcolonial state and the difficulties of securing its people s wellbeing Connecting peace and conflict democracy and international development studies Bah and Emmanuel argue that there is a clear nexus between the concepts and practices of peace building and statebuilding that peace building and statebuilding are not domestic matters alone but also matters of global intervention and that civil wars can be viewed as opportunities for state building through creative postwar partnerships and organization This study goes beyond the familiar concepts of failed states R2P peacekeeping and peace mediation and introduces and enhances the concepts of state decay new humanitarianism people centered liberalism and institutional design In doing so it provides critical lessons that local and international actors can draw on as they try to figure out practical solutions to the political economic and social problems that impede the development of peaceful and democratic multiethnic postcolonial states in Africa and beyond Applying comparative historical methods and theory to archival materials and expert interviews International Statebuilding in West Africa seeks to shift the discourse on civil wars from their causes and implications to the opportunities they provide to rework failed states and to shift the discourse on African states from their colonial and neocolonial legacies to their shared moral and security interests with the rest of the world

*The Responsive Community* ,2000      **Conflicting Interests in Reproductive Autonomy and Their Impact on New Technologies** ,2008      Community and Conflict Derek Edyvane,2007 Against the widespread supposition that moral conflict is undermining of community this book argues that conflict is necessary for a liberal political community It develops a new philosophical basis for political association at the heart of which lies an innovative account of the way in which journey narratives in literature can serve to shed light on the possibilities for solidarity in modern democratic societies

*Patient Autonomy and the Ethics of Responsibility* Alfred I. Tauber,2005 The principle of patient autonomy dominates the contemporary debate over medical ethics In this examination of the doctor patient relationship physician and philosopher Alfred Tauber argues that the idea of patient autonomy which was inspired by other rights based movements of the 1960s was an extrapolation from political and social philosophy that fails to ground medicine s moral philosophy He proposes instead a reconfiguration of personal autonomy and a renewed commitment to an ethics of care In this formulation physician beneficence and responsibility become powerful means for supporting the autonomy and dignity of patients Beneficence Tauber argues should not be confused with the medical paternalism that fueled the patient rights movement Rather beneficence and responsibility are moral principles that not only are compatible with patient autonomy but strengthen it Coordinating the rights of patients with the responsibilities of their caregivers will result in a more humane and robust medicine Tauber examines the historical and philosophical competition between facts scientific objectivity and values patient care in medicine He analyzes the shifting conceptions of personhood underlying the doctor patient relationship offers a topology of autonomy from Locke and Kant to Hume and Mill and explores both philosophical and practical strategies for

reconfiguring trust and autonomy Framing the practicalities of the clinical encounter with moral reflections Tauber calls for an ethical medicine in which facts and values are integrated and humane values are deliberately included in the program of care

**Social Justice and Democracy** Basile Ekanga,2005 The author proceeds from empirical basis to show how far the two Rawls s principles of justice can be implemented in Africa Positions not only of Rawls but also of other philosophers are presented reconstructed and commented They are also opposed with critiques and other theories so that the appropriate position for Africa can be explained The author comes to the conclusion that the fundamental liberties are still in the making in Africa A long colonial past and Apartheid have deprived Africa from its blossoming However a groping democracy of full hope is pointing ahead So that freedom and democracy gain more room the author suggests the establishment of federalism based on ethnic groups To speak of democracy and freedom without a substantial economic support seems illusive In order to improve the lot of the least advantaged the author proposes betterment of education and health International Journal of Contemporary Sociology ,2005

**Global Change, Civil Society and the Northern Ireland Peace Process**
