Proceedings Of The Third International Conference On Engineering Computational Technology:

Proceedings of the Third International Conference on Engineering Computational Technology B. H. V.

Topping,Zdeněk Bittnar,2002 Contains the extended abstracts of the contributed papers that were presented at the Sixth International Conference on Computational Structures Technology which was held in Prague Czech Republic from 4 6 September 2002 The full length papers are available in electronic format on the accompanying CD ROM *Advances in the Protection of Museum Collections from Earthquake Damage* Jerry Podany,J. Paul Getty Museum,2008 For nearly three decades the J Paul Getty Museum has played a leading role in the development of seismic mitigation for museum collections Contributors to this volume ranging from museum conservators mount makers and historical archaeologists to seismologists and structural engineers discuss and illustrate a wide variety of earthquake mitigation efforts for collections from the simple and inexpensive to the complex and costly The book s essays examine the techniques applied to large collections and to small house museums to exhibition cases containing objects as well as to monumental works of art and historical structures Approaches range from securing and restraining objects to decoupling them from the ground through a variety of base isolation mechanisms These pioneering efforts have been developed in the face of significant challenges since as any engineer conservator or mount maker who has undertaken this work can attest a small sculpture can often be a far greater challenge to protect than a multistory building Transactions on Computational Systems Biology VI Gordon Plotkin,2006-11-17 The 5th Transactions on Computational Systems Biology volume edited by Gordon Plotkin features carefully selected and enhanced contributions initially presented at the 2005 IEEE International Conference on Granular Computing The 9 papers selected for this special issue discuss various aspects of computational methods algorithm and techniques in bioinformatics such as gene expression analysis biomedical literature mining and natural language processing protein structure prediction biological database management and biomedical information retrieval **Index of Conference Proceedings** British Library.
