Creating a Data Driven System Peter Holly, 2006 Merrill Education and ETS Educational Testing Service are proud to present Createign a Data Driven System by Peter J. Holly. ETS 2003 This brief workbook provides a model of what can be done to become a data using system at the local level for the twin purposes of accountability and development. In building on current practice, this model also extrapolates from the present to the future tense by fitting the existing puzzle pieces into a more holistic comprehensive system of data use.

School Leadership and Administration Petra E. Snowden, Richard A. Gorton, 1998 The text is designed to help prospective and experienced principals, administrators and supervisors increase their knowledge and skills through concepts, case studies and simulations. Two parts make up this text. Part I presents important theoretical concepts and research findings that if adequately understood and appropriately applied can improve educators' problem solving and leadership effectiveness. Problems and issues illustrated in case studies and simulations are presented in Part II. Nevertheless, it is the problem dimension of human behaviour in school administration that should be studied and it is here that preparation and in-service training programs need to be directed if prospective and experienced administrators and supervisors are to be equipped with the skills needed for the future as well as for the present.
