Project-Based Knowledge in Organizing Open Innovation Sara Bonesso, Anna Comacchio, Claudio Pizzi, 2014-07-10 Enriching understanding of the current theoretical debate on project based learning and R D sourcing Project based Knowledge in Organizing Open Innovation draws on innovation literature and knowledge based perspectives to solve open problems in the relationship between knowledge development at project level and how firms organize product innovation combining in house R D activities with inbound open innovation Through field research in different industrial settings pharmaceutical automotive and machine tools and with complementary methodological approaches this book provides empirical evidence on how project knowledge features affect sourcing decisions at firm level Due to the emerging interest in the management literature on project based organizations and on the relevance of project forms of organizing in a knowledge based economy this volume will appeal to scholars and students in business and management in particular those in innovation management organization theory and strategic management Addressing the still open issue of how the firm level should be complemented by studies at the project level of analysis this book provides theoretical and empirical arguments on the advantages of a more fine grained level of analysis to understand how firms organize their innovation processes across boundaries Technological, Managerial and Organizational Core Competencies: Dynamic Innovation and Sustainable Development Nobre, Farley Simon, 2011-09-30 Innovation involves a set of processes which support the production and transformation of knowledge into new processes technologies and products goods and services and provide an organization with particular strengths and value relative to other firms In such a view innovation is a key source of customer benefits and sustainable competitive advantage Technological Managerial and Organizational Core Competencies Dynamic Innovation and Sustainable Development investigates the impact of knowledge management information systems finance organizational networks internationalization strategic management marketing entrepreneurship and sustainability on an organization that pursues dynamic innovation and sustainable advantage This book provides research and practice for graduate and undergraduate programs as well as business firms with different technological managerial and organizational perspectives

Further Description from the Editors This book represents the culmination of an international project to compile interdisciplinary research that most contributes to innovation More specifically this book is about innovation in firms industries nations and society It speaks to professionals and researchers who want to improve their understanding of dynamic innovation and sustainable development The Editors goal is to foster cross pollination among researchers To this aim the Editors have selected and assembled 35 chapters that illustrate multidisciplinary theoretical perspectives and empiric results on innovation and the roles of Sustainability Organizational Networks Entrepreneurship Knowledge Management R D T Research Development and Technology Management Marketing Finance Internationalization and Information Systems in the organization that pursues dynamic innovation and sustainable development Innovation involves processes organizational elements or resources and Organizational Abilities OA that support the production and transformation of knowledge into new knowledge processes structures technologies and products goods and services At the firm and industry levels of analysis innovation can provide organizations with strengths relative to other firms clusters and nations and it is a key source of customer benefits and sustainable development At the collective and societal levels of analysis innovation can provide humanity with economic social and environmental wealth through sustainable development The uniqueness of this book lies in the participants efforts to identify Organizations Creative Areas OCA that can provide core competencies for the organization in pursuit of dynamic innovation and sustainable development In this perspective innovation is a dynamic system and it is contingent upon a set of core competencies that couple to each other Therefore changing of even one competence can affect the organization s ability to innovate The book avoids the term competitive advantage and adopts a more fruitful perspective of sustainable development the process of achieving human development in an inclusive connected equitable prudent and secure manner An inclusive perspective sees traditional competitive advantage as occupying one extreme whereas truly sustainable development occupies the opposite extreme Sustainable development must benefit not only the organization and its customers but also the whole society and the future of humanity through sustainability Most chapters of this book fall between these extremes

Npd in Indigenous Chinese Companies and Its Deployment

Within the Chinese Economy Xiaohuan Zhang, 2006-11 The thesis aims to examine and explore NPD activities within China and establish whether a Western interpretation of NPD is appropriate to indigenous Chinese companies engaged in an economy which is entering an era of globalisation The research is based on ten case studies undertaken within five industrial sectors lighting light fabrication watches personal consumer products white goods automotive and telecommunications Cases are representative of the differing types of Chinese organisations and include examples of privately collectively and state owned enterprises POEs COEs and SOEs together with international joint ventures IJVs Conceptual approaches are developed to examine organisational background NPD culture technology transfer NPD coordination entrepreneurial behaviour network development and market dynamics within each case study The units of analysis in the framework reflect

three main themes of intra extra organisational and strategic issues which are revisited throughout the thesis The case studies are analysed using a mapping process in which each of the cases is described in terms of its engagement with NPD roles and performance and their correlation with economic development compared with Western practice Contingent on this the thesis identifies a series of assumptions within Western literature which are evaluated by assessing the case study findings to establish the transferability of NPD conceptions In addition correlations between differing NPD related issues are identified using repertory grid theory detailed in a separate appendix and complementary to the case study analysis The thesis concludes by proposing models of strategic NPD specific to Chinese organisations at both intra organisational and micro and macro economic levels these provide an overview of distinctive NPD performance in indigenous companies contextualised within the Chinese economy The implication is that the future development of the Chinese economy will necessitate greater engagement with NPD albeit in a differing form
