Private Screenings Television And The Female Consumer:

Private Screenings Lynn Spigel, Denise Mann, 1992 While much research into television has been historical textual or empirical this volume approaches the topic from a sociocultural and feminist perspective to address important questions from the viewpoint of the audience as well as from that of the industry The contributors examine the ways in which the television industry seeks to deliver a female audience to its advertisers while inserting itself into women s lives both at home and in the marketplace hence the concept of a private screening in which the outside media world is brought into the personal space The volume analyzes how television delivers consumption to its female audience by displaying commodities and lifestyles that attempt to engender an idealized sense of community and how audiences understand television programming and how these programs construct definitions of femininity

An Analysis of Thinking and Research About Qualitative Methods W. James Potter, 2013-11-05 Written for social science scholars who want to learn more about the qualitative way of thinking this book addresses the full continuum of issues about the qualitative methodologies At one end of that continuum are the deeply philosophical concerns of ontology and epistemology At the other concrete end of that continuum are the practical issues of what is considered evidence How does one go about gathering evidence Where when and how does one analyze evidence

What are the alternative ways of dealing with tone and voice in writing qualitative research The attention to practical concrete issues makes this book useful as a handbook providing a great deal of vital information to scholars who want a guide to making decisions as they navigate their research questions through the qualitative realm Uniquely qualified to write such a book Potter has earned PhDs in both qualitative methods with a concentration in linguistics and field studies and in quantitative methods with a concentration in social science theory and statistics The book is not an ideological argument that glorifies one system of thinking while attempting to persuade the reader that other systems of thinking are bankrupt Rather the book presents a respectful balanced analysis of the strengths and weaknesses of the qualitative approach The book builds to a controversial final chapter entitled Is Convergence a Possibility in which Potter synthesizes a conclusion from his analysis of a wide range of qualitative studies across three broad topic areas text focused research audience focused research and institution focused research and across seven major qualitative methodologies ethnography ethnomethodology reception study ecological psychology symbolic interactionism cultural studies and textual analysis His conclusion is that not only is there a possibility of a convergence between qualitative and quantitative approaches but that the convergence has already happened The book includes an appendix in which 95 books and articles using the qualitative approach are abstracted and analyzed to illustrate key points of methodology and methods It also includes subject and author indexes

The Alchemy of Illness Kat Duff, 1993 Illness is a universal experience There is no privilege that can make us immune to its touch We are taught to assume health illnesses being just temporary breakdowns in the well oiled machinery of the body But illness has its own geography its own laws and commandments At a time when the attention of the whole nation is focused on health care Kat Duff inquires into the nature and function of illness itself Duff a counselor in private practice in Taos New Mexico wrote this book out of her experience with chronic fatigue syndrome but what she has to say is applicable to every illness and every one of us For those who are sick this book offers solace and recognition For those who care for them either physically or emotionally it offers inspiration and compassion Finally this fresh perspective on healing reveals how every illness is a crucible that tries our mettle tests our limits and provides us with an unparalleled opportunity to integrate its lessons into our lives *Österreichischer Zeitgeschichtetag 1995* Rudolf G. Ardelt, Christian Gerbel, 1996

Like a Natural Woman Kirsten Pullen, 2014-08-08 Bathing beauty Esther Williams bombshell Jane Russell exotic Carmen Miranda chanteuse Lena Horne and talk show fixture Zsa Zsa Gabor are rarely hailed as great actors or as naturalistic performers Those terms of praise are given to male stars like Marlon Brando and James Dean whose gritty dramas are seen as a departure from the glossy spectacles in which these stars appeared Like a Natural Woman challenges those assumptions revealing the skill and training that went into the work of these five actresses who employed naturalistic performance techniques both onscreen and off Bringing a fresh perspective to film history through the lens of performance studies Kirsten Pullen explores the ways in which these actresses who always appeared to be playing themselves responded to the naturalist

notion that actors should create authentic characters by drawing from their own lives At the same time she examines how Hollywood presented these female stars as sex objects focusing on their spectacular bodies at the expense of believable characterization or narratives Pullen not only helps us appreciate what talented actresses these five women actually were but also reveals how they sought to express themselves and maintain agency even while meeting the demands of their directors studios families and fans to perform certain feminine roles Drawing from a rich collection of classic films publicity materials and studio archives Like a Natural Woman lets us take a new look at both Hollywood acting techniques and the performance of femininity itself **Women and Media** Cynthia M. Lont,1995 This text examines women s roles and impact in

Women from Lucy to Friends Lynn C. Spangler,2003-09-30 Between the pre feminist antics of Lucy Ricardo the post feminist musings of the women in Friends the depiction of women on television has evolved in as many interesting surprising ways as the women s movement itself **Women and American Television** Denise Lowe,1999 Although limited in focus to the role

of women in and on television this work is notable for unearthing the more obscure personalities and programs not covered by other television encyclopedias Includes bibliography several appendixes and a subject index BOOK JACKET **Ambient Television** Anna McCarthy,2001-03-16 Examines the role of television in public space at different points in the history of the medium and how that differs from the normal assumptions of domestic viewing space **Library Journal** ,1992 Includes

Williams,2002 There s no denying that television is a forceful presence in students lives Yet in writing classrooms the assumption is often that television is only an obstacle to teaching critical print literacy Little careful attention has been paid to exactly how television influences the ways in which students write or how their experiences with television might be used to help them write more effectively Bronwyn T Williams argues that television is a powerful influence that is always present in the writing classroom even if it is not acknowledged by either teachers or students His interviews with students and observations of their television viewing and print reading have led him to conclude that the rhetorical skills students develop that allow them to read televised communication fluently and even critically can be used in a writing class to explore the same concepts in print such as narrative form audience plot and irony Williams shows teachers how they can harness these skills to influence the ways

students perceive and engage in writing and reading from the first day of a composition course Chapters in the book are followed by classroom practice interchapters which offer practical suggestions to help teachers use students existing television literacies to achieve a more complex nuanced and critical literacy in print The influence of television on student writers is complex however and Williams also examines how the discursive nature of television can conflict with writing pedagogies Television as a communicative form that is structured by time without a clear authorial presence and dominated by emotion often conflicts with what writing teachers consider fundamental properties of discourse in the academy such as reflection individual authorship and detached analysis Finally Williams considers the implications of his study for the field of composition in a time of expanding communication and literacy technologies In a world in which communication happens increasingly by electronic and visual means where popular culture is seen to collide with the academy Williams provides a refreshing and thought provoking look at the intersections of seemingly disconnected literacies television and print and the ways in which teachers can draw upon certain critical discursive abilities their students already possess but that have generally been dismissed and ignored

Delights, Desires, and Dilemmas Ann C. Hall, 1998-10-28 The question of the representation of women in the media has been an important one for feminists over the past three decades This diverse collection of essays represents three major trends in feminist media studies the liberal feminist perspective which focuses on the media's tendency to misrepresent and oppress women the postmodern perspective which illustrates the ways in which women can participate in enjoy and sometimes subvert the dominant media and the more recent attempts to identify and challenge the subtle backlash that threatens to obliterate feminist gains The contributors cover a wide range of subjects from advertisements for women's stockings to the life and death of Princess Diana
