Barragan - The Complete Works Luis Barragán, 2003-10 Mexican architect Luis Barragán 1902-88 was one of the twentieth century's most creative designers and one of its best known architects. Self-taught, he achieved international renown for his remarkable personal artistic vision. Using vegetation, water, primary geometric forms and vivid colors, Barragán created a poetic and painterly yet elegantly simple architectural style that transformed the Mexican building tradition into an abstract architectural language. This revised edition of our best-selling monograph, the first comprehensive compilation of Barragán's work, 102 buildings and 12 additional projects, contains new photographs and an updated bibliography. Its intelligent analyses and superb illustrations demonstrate the complexity and scope of this genius as both an architect and a landscape designer. Barragán: The Complete Works collects over 300 illustrations, including Barragán's drawings, photographs of his work, redrawn plans, elevations, and scale models of important projects; texts by Álvaro Siza, Antonio Toca, and J. M. Buendía, as well as an essay by Barragán himself and an unabridged transcription of his Pritzker Prize acceptance speech. This book is the essential compendium on the work of this great master architect.

Liberty, Equality, and Plurality Larry May, Christine T. Sistare, Jonathan Schonsheck, 1997. Voters, as well as ethicists and legal experts, are currently debating many of the issues inherent in balancing individual with majority and minority group rights. Though often there seems to be an inverse correlation between the two, May, Washington U. chairs lively multidisciplinary discussions on the incompatibility of liberty and equality with responsibility, being the wild card, law, morality, and limits on liberty in regard to freedom of speech, poverty, taxation, and assisted suicide, and equality and the clash of cultures in cases of hate speech and religious freedom vs. refusal of medical treatment.
