**Privatization South American Style** Luigi Manzetti, 1999 Privatization South American Style focuses on the politics of privatization in Argentina Brazil and Peru It examines both the micro and macroeconomics of achieving privatization the policy measures introduced and factors affecting the implementation of privatization The political dimensions of privatization are analysed in order to explain the variations in national success in formulation and implementing privatization programmes The author argues that evidence suggests that national governments as planned and that rarely implement most divestiture policies from a technical standpoint

privatization is a learning process that evolves through trial and error It also examines the apparently unconventional methods used by the governments of Argentina Brazil and Peru to achieve privatization Comparative in its approach the book seeks also to shed light on the nature of privatization in countries throughout the developing world The book more generally argues that poorly designed privatization policies may have future serious implications on issues such as the rule of law and the regulation of public utilities

assessing experiences of individual countries The chapters in the volume are organized in three thematic groups institutional and historical issues privatization and its consequences and the remodeling of economic policies in Latin America **In the Public Interest?** Brendan Martin,1993 State provision of public services and government management of the economy have been under relentless assault since the early 1980s As this book shows in fascinating detail privatization commercialization and deregulation have become the watchwords of public sector reform worldwide Brendan Martin charts this global phenomenon and its effects both on those working in the public sectors and on people dependent on public provision Privatization and structural adjustment are not delivering better public services or improved economic prospects in the North or the South What is needed the author argues is a new approach which transcends the outdated dichotomy of private versus public **Dhaka University Journal of Business Studies** ,2011-06
