Problem With Men:

Working With Troubled Men Morley D. Glicken, 2006-04-21 This book offers a concise readable research grounded synthesis of the special concerns mental health and other helping professionals need to address when working with men today and explains a wealth of effective gender specific approaches to assessment and intervention that result in more successful outcomes for male clients Many more women than men seek counseling and therapy and to some extent standard services have evolved in response to female styles of communicating and problem solving Practitioners frequently feel frustrated and baffled by their male clients because they seem unresponsive to treatment approaches that work so well for women But many men benefit from therapy when practitioners understand male socialization and the ways men communicate and problem solve Too many men today are doing badly and are in real need of help Almost half of America's male children grow up in single parent homes headed by mothers where they seldom have male mentors or role models Fewer men than women attend or graduate from college and increasing levels of binge drinking and date rape on campuses paint a discouraging picture of men on campus Male violence continues to be a serious problem in many American communities with male youth violence continuing at epidemic levels Men die younger than women overall and in much higher proportions from suicide homicide and cirrhosis of the liver Handbook of Evolutionary Psychology Charles B. The Problem with Women Is Men: Solve the Problem & Be Happy Ron Seaborn,2009-06-01 This very unusual and thought provoking book focuses on the essence of personal relationships as well as our connection to each other and the universe The answers provided here will open up new doors to a better relationship with others and yourself Its unique twist on relationships goes beyond the female and male dichotomy and includes what we should keep in mind when dealing with family friends strangers and ourselves According to the author Men are not being responsible and women are reacting to that irresponsibility Women are choosing men based on what they want instead of who they are Men are choosing to be with women without the commitment to maintain the relationship Children assimilate the relationship issues of their parents and the drama is repeated by each succeeding generation The approach taken by author Ron Seaborn challenges women and men to raise their consciousness **Longmans' elementary mathematics** Longmans, Green and co,1892 **Women**
