Problems In Prejudice:

On the Nature of Prejudice John F. Dovidio, Peter Glick, Laurie A. Rudman, 2008-04-15 *On the Nature of Prejudice* commemorates the fiftieth anniversary of the publication of Gordon Allport's classic work on prejudice and discrimination by examining the current state of knowledge in the field. A distinguished collection of international scholars considers Allport's impact on the field, reviews recent developments, and identifies promising directions for future investigation. Organized around Allport's central themes, this book provides a state-of-the-art comprehensive view of where the field has been, where it is now, and where it is going.

Empowering Multiculturalism and Peacebuilding in Schools Polat, Soner, Günçavdı, Gizem, 2020-03-06 With modern globalization and technological improvements, people from different cultural backgrounds have more opportunity to interact. These differences can be seen across various communities, from familial to organizational, so peacekeeping strategies become essential when navigating global communities. Since these various cultures collect in schools, teaching students to become peacemakers by encouraging skills that include intercultural communication, intercultural sensitivity, and intercultural competence are essential for structuring a peaceful and harmonious society. *Empowering Multiculturalism and Peacebuilding in Schools* is an essential research publication that provides comprehensive research on peacebuilding and multiculturalism in terms of educational organizations as well as the skills that need to be taught to students in order to promote peaceful interaction and inclusivity. Featuring a wide range of topics such as cyberbullying, restorative instruction, and intercultural education, this book is ideal for teachers, academicians, administrators, principals, professional development experts, curriculum designers, researchers, managers, and students.
