Process Of War Advancing The Scientific Study Of War:

Harvey Starr: Pioneer in the Study of Conflict Processes and International Relations Harvey Starr, 2021-09-11

This book sets out through Starr's personal story his interest in how the ideas of intellectual trajectories and political memories could be incorporated into intellectual autobiography thus exploring how the personal lives of individual academics intersected with their professional interests. By following the development of his approach to research interdisciplinarity the logic of inquiry and the opportunity and willingness framework scholars and researchers will see how his groundbreaking research in Conflict Processes and International Relations Theory developed and were interlinked especially diffusion geography and spatiality the democratic peace and integration decision making. In addition graduate students and junior faculty should find useful hints about how to navigate their way through the complexities of becoming both a professional and successful academic and scholar. This book provides the most complete treatment of the work and contributions of Harvey Starr a former President of the International Studies Association. Important for contemporary students of international relations and their understanding of IR theory and methods. Demonstrates an eclectic linking of theoretical logical and empirical approaches to the study of IR providing a critical logic of inquiry to do research. Provides insights and blueprints for how to develop interdisciplinary and multidisciplinary scholarship highlighting geography and social psychology. Affords graduate students and recent Ph.D.s guidance in the development of research becoming a professional and the choices to be made in one's academic career.

International Conflict Stephen L. Quackenbush, 2014-08-12

Introducing students to key theories and empirical findings of international conflict stemming from scientific research on core facets this book covers the whole process of interstate war from causes of conflict to escalation conduct resolution and recurrence.

Causes and Consequences of International Conflict Glenn Palmer, 2009-10-16 Investigation into the causes of international conflict has in many ways formed the central locus of the early work in the scientific investigation of world politics. This edited volume contains the most recent quantitative work in this area reflecting the current state of the field in the topics addressed the data utilized and the methods employed. The book is divided into three parts presenting first some recent contributions to the work on the causes of international conflict set in the context of realist theories. The second part addresses issues relating to data methods and cases used to analyze international conflict while the third part presents some examples of the use of a variety of different methods to answer questions relating to issues which engage international relations scholars today. The chapters focus on a variety of pertinent topics and include discussions of important innovations in our ability to analyze conflict such as the introduction of the Militarized Interstate Dispute MID data.
