Abolitionist Twilights Raymond James Krohn,2023-10-03 Provides unique insight into Reconstruction s downfall and Jim Crow s emergence In the years and decades following the American Civil War veteran abolitionists actively thought and wrote about the campaign to end enslavement immediately This study explores the late in life reflections of several antislavery memorial and historical writers evaluating the stable and shifting meanings of antebellum abolitionism amidst dramatic changes in postbellum race relations

By investigating veteran abolitionists as movement chroniclers and commemorators and situating their texts within various contexts Raymond James Krohn further assesses the humanitarian commitments of activists who had valued themselves as the enslaved people's steadfast friends. Never solely against slavery, post-1830 abolitionism challenged widely held anti-Black prejudices as well. Dedicated to emancipating the enslaved and elevating people of color, it equipped adherents with the necessary linguistic resources to wage a valiant, sustained philanthropic fight. *Abolitionist Twilights* focuses on how the status and condition of the freedpeople and their descendants affected book-length representations of antislavery persons and events. In probing veteran abolitionist engagement in or disengagement from an ongoing African American freedom struggle, this ambitious volume ultimately problematizes scholarly understandings of abolitionism's racial justice history and legacy.

William Lloyd Garrison, 1805-1879 Wendell Phillips Garrison, 1889 **William Lloyd Garrison 1805 - 1879** Wendell Phillips Garrison, 1885 *Selling Antislavery* Teresa A. Goddu, 2020-03-13 Beginning with its establishment in the early 1830s, the American Anti-Slavery Society (AASS) recognized the need to reach and consolidate a diverse and increasingly segmented audience. To do so, it produced a wide array of print material and visual media: almanacs and slave narratives, pincushions and gift books, broadsides and panoramas. Building on the distinctive practices of British antislavery and evangelical reform movements, the AASS utilized innovative business strategies to market its productions and developed a centralized distribution system to circulate them widely. In *Selling Antislavery*, Teresa A. Goddu shows how the AASS operated at the forefront of a new culture industry and by framing its media as cultural commodities made antislavery sentiments an integral part of an emerging middle-class identity. She contends that although the AASS's dominance waned after 1840 as the organization splintered, it nevertheless created one of the first national mass markets. Goddu maps this extensive media culture, focusing in particular on the material produced by AASS in the decade of the 1830s. She considers how the dissemination of its texts, objects, and tactics was facilitated by the quasi-corporate and centralized character of the organization during this period and demonstrates how its institutional presence remained important to the progress of the larger movement. Exploring antislavery's vast archive and explicating its messages, she emphasizes both the discursive and material aspects of antislavery's appeal, providing a richly textured history of the movement through its artifacts and the modes of circulation it put into place. Featuring more than seventy-five illustrations, *Selling Antislavery* offers a thorough case study of the role of reform movements in the rise of mass media and argues for abolition's central importance to the shaping of antebellum middle-class culture. *The National Union Catalog, Pre-1956 Imprints* Library of Congress, American Library Association. Committee on Resources of American Libraries. National Union Catalog Subcommittee, 1980 **Reforming Men and Women** Bruce Dorsey, 2006 Before the Civil War, the public lives of American men and women intersected most frequently in the arena of religious activism. Bruce Dorsey broadens the field of gender studies, incorporating an analysis of masculinity into the history of early American religion and reform. His is a holistic account that reveals the contested

meanings of manhood and womanhood among antebellum Americans both black and white middle class and working class Urban poverty drink slavery and Irish Catholic immigration for each of these social problems that engrossed Northern reformers Dorsey examines the often competing views held by male and female activists and shows how their perspectives were further complicated by differences in class race and generation His primary focus is Philadelphia birthplace of nearly every kind of benevolent and reform society and emblematic of changes occurring throughout the North With an especially rich history of African American activism the city is ideal for Dorsey's exploration of race and reform Combining stories of both ordinary individuals and major reformers with an insightful analysis of contemporary songs plays fiction and polemics Dorsey exposes the ways race class and ethnicity influenced the meanings of manhood and womanhood in nineteenth century America By linking his gendered history of religious activism with the transformations characterizing antebellum society he contributes to a larger quest to engender all of American history
