Often the novels have been treated as works of pessimistic social and political criticism by contrast this detailed analysis of the unique creative inner lives and the corresponding spiritual development of the characters with the exception of Johannes von Sude in *Die Mauer* schwankt demonstrates the narrator's positive assessment of the characters and the increasingly optimistic tendency of the novels.

Masculinity from the Inside Bruce Fleming, 2022-09-29 Rejecting the vocabulary and presuppositions common in Western talk about men this book considers the ways in which men see speak about and understand themselves. Based on the author's experience of teaching young men at a military academy and drawing on a range of theory it identifies a disconnect between academic discourses on masculinity based as these are on theoretical positions that describe the world from a position of outsidership and the reality of most men's experience or the way in which men see themselves. With an erroneous view of men dominating the airwaves most men simply fail to engage leaving the mistaken conceptions of masculinity to circulate and allowing policies to develop that treat men as predators and aggressors. Presenting insights into masculinity drawn from experience with young men drawn toward military life *Masculinity from the Inside* seeks to address the gulf between scholarly understandings of men and men's own understandings of themselves. It will therefore appeal to scholars and students of sociology cultural studies and gender studies to anyone with interests in contemporary masculinity and the question of what it means to be a man.

Other People's Pain Martin Modlinger, 2011 This series promotes inquiry into the relationship between literary texts and their cultural and intellectual contexts in theoretical interpretative and historical perspectives. It has developed out of a research initiative of the German Department at Cambridge University but its focus of interest is on the European tradition broadly perceived. Its purpose is to encourage comparative and interdisciplinary research into the connections between cultural history and the literary imagination generally.
