Privatization And Capital Market Development Strategies To Promote Economic Growth:

Privatization and Capital Market Development Michael McLindon, 1996-09-24 Privatization and capital markets support and reinforce each other to promote economic growth around the world. This work is intended to fill a gap in the literature by discussing the links between privatization and capital markets and to provide useful insights for policy makers in developing countries and in the international donor agencies for academics and practitioners dealing with economic development and for the internationally minded private sector around the world. Privatization in its various forms and the development of capital markets will be a primary catalyst for economic growth and development well into the next century.

Die Performance von Privatisierungen am Kapitalmarkt Martin Alexander Ahnefeld, 2007-12-03 In den letzten zwei Dekaden wurden in ganz Westeuropa zahlreiche ehemals staatliche Unternehmen privatisiert und der Börsengang einer breiten Aktionärsbasis übertragen. In Deutschland sind hier vor allem Deutsche Telekom und Deutsche Post, aber auch die Restprivatisierung der Deutschen Lufthansa zu nennen. Das letzte deutsche Großunternehmen in Staatsbesitz, die Deutsche Bahn AG, hat ihren Börsengang vor Augen, so dass jetzt sicherlich ein besonders spannender Zeitpunkt ist, den bisherigen Erfolg der westeuropäischen Privatisierungen Revue passieren zu lassen. Untersuchungen zum Erfolg westeuropäischer Privatisierungen sind bis heute äußerst rar und die unadjustierte Übertragbarkeit der vorliegenden Evidenz zu den Erfahrungen aus den Entwicklungs- und Schwellenländern ist mehr als fraglich. Eine Analyse der langfristigen Aktienkursentwicklung, des Risikos und der Ertragserwartungen von kapitalmarktorientierten Privatisierungen war also dringend erforderlich. Die vorliegende Arbeit nimmt sich dieser bedeutenden Forschungslücke umfassend mit viel Liebe zum Detail und höchster Sorgfalt an. Ihr primäres Ziel war es, anhand von Kapitalmarktdaten den Erfolg von Privatisierungen über die Börsen für Westeuropa zu ermitteln und wesentliche Determinanten dieses Erfolgs zu bestimmen. So wird ein objektiver Kenntnisstand erreicht, auf dessen Basis sich fundierte Handlungsempfehlungen für die weitere Privatisierungspraxis aus Unternehmenssicht ableiten lassen. Zudem finden sich damit auch für wirtschaftspolitische Entscheidungsträger wichtige Informationen zum Verständnis und zur Bewertung des sich weiter fortsetzenden Privatisierungsprozesses. **Privatisation**

and the Creation of a Market-Based Legal System Bahaa Ali El-Dean, 2002 This Volume aims to provide an analysis of problems and challenges relating to the creation of a legal infrastructure that meets the needs and capabilities of emerging market economies in the light of the privatisation process.

Joseph B. Oyedele, 2014-02-17 The demand pressure and the plethora of evidences observed in the form of increasing infrastructure financing gap ageing infrastructure environmental factors such as climate change and rising quality standards are factors attracting institutional and private sector participation in infrastructure investment Therefore the search for innovative means of financing infrastructure has become incessant Also the features of the financial landscape especially in a financial crisis has further underpinned the significance of looking beyond the present infrastructure need to a more sustained infrastructure financing scheme anticipated from institutional investors A well established capital market has therefore been identified as a viable option for long term and steady global capital flows to financing infrastructure projects else the burden will remain on governments to offer direct or indirect support to private investors in attracting financing for infrastructure development This book therefore conceptually investigates the potentials of the capital market and institutional investors capital flows in bridging the global infrastructure funding gap A fundamental conclusion from the book revealed that institutional investors particularly pension funds have the capacity to pool enormous resources into the infrastructure market thus emphatically projecting them as a force to be reckoned with in the global infrastructure investments

Doing Business in Newly Privatized Markets Russell Miller, 2000-08-30 During the past decade thousands of former state controlled companies in more than 100 different countries have entered the private sector These firms range in size and commercial significance from small family owned kiosks in Russia to some of the largest most influential corporations in Western and Central Europe Latin America and Asia Miller provides a comprehensive business oriented perspective on the origin and geographic expansion of the privatization movement and describes the methods that governments use and the objectives they hope to achieve in the divestment of state assets He identifies the formative influences on these new companies as well as the operating needs created by the privatization process Privatization intensive markets are examined in relation to their importance type of companies involved and the challenges they present Miller's book also discusses alternate methods of market expansion such as reaching newly privatized firms through a strategic marketing program His book will be essential reading for academicians and graduate students in international business and world trade as well as their practitioner counterparts in corporations and multilateral development agencies
