Privatization in Criminal Justice Bruce L. Benson, 1996 **Privatization in Criminal Justice** Michael J Gilbert, David Schichor, 2001-01-01 Privatization of Criminal Justice Marketisation and Privatisation in Criminal Justice Kevin Albertson, Mary P. Corcoran, Jake Phillips, 2020 This collection offers a comprehensive review of the origins scale and breadth of the privatisation and marketisation revolution across the criminal justice system Leading academics and researchers assess the consequences of market driven criminal justice in a wide range of contexts from prison and probation to policing migrant detention rehabilitation and community programmes Using economic sociological and criminological perspectives illuminated by accessible case studies they consider the shifting roles and interactions of the public private and voluntary sectors As privatisation outsourcing and the impact of market cultures spread further across the system the authors look ahead to future developments and signpost the way to reform in a post market criminal justice sphere **Criminal Justice and Privatisation** Philip Bean, 2020-06-07 Over the past few years opposition to the privatisation in public services in the United Kingdom and elsewhere has grown especially in areas related to criminal justice Privatisation has existed within the British criminal justice system at least since the early 1990s but the privatisation of the Probation Service in 2014 was a significant landmark in this process and signalled a larger programme of privatisation to come Criminal Justice and Privatisation works to examine the impact of privatisation on the criminal justice system and to explore the potential effects of privatising other areas including the police and the security industry By including chapters from practitioners and academics alike the book offers an expansive overview of the criminal justice system as well as observations of the effect of privatisation at ground level By also exploring the way the private companies are paid how they operate and what private companies do this book offers an insight into and the future of privatisation within the public sector Written in a clear and direct style this book will appeal to students and scholars in criminology sociology cultural studies social theory and those interested in learning about the effects of privatisation **Capitalist Punishment** Andrew Coyle, Allison Campbell, Rodney Neufeld, 2003 Foreword Sir Nigel Rodley Privatising Criminal Justice Christopher Hamerton, Sue Hobbs, 2022-09-30 Privatising Criminal Justice explores the social cultural and political context of privatisation in the criminal justice sector In recent years the criminal justice sector has made various strategic partnerships with the private sector exemplified by initiatives within the police the prison system and offender services This has seen unprecedented growth in the past 30 years and a veritable explosion under the tenure of the coalition government in the UK This book highlights key areas of domestic and global concern and illustrates with detailed case studies of important developments It connects the study of criminology and criminal justice to the wider study of public policy government institutions and political decision making In doing so Privatising Criminal Justice provides a theoretical and practical framework for evaluating collaborative public and private sector response to social problems at the beginning of the twenty first century An accessible and compelling read this book

will appeal to students and scholars of criminology criminal justice sociology and politics and all those interested in how privatisation has shaped the contemporary criminal justice system **Private Criminal Justice** Ric Simmons,2023-10-05

The United States is in the midst of a significant re evaluation of its criminal justice system with increasing calls for reforming or defunding the police and efforts to curb mass incarceration But focusing on the public criminal justice system paints an incomplete picture of how we address criminal activity In *Private Criminal Justice* Ric Simmons shows how significant amounts of criminal activity are detected by private police and how many disputes are settled not in public courts but through informal agreements between the victim and the accused or through adjudicative procedures run by private institutions In this timely and eye opening book Simmons examines the vast diverse and under appreciated private criminal justice system suggesting reforms that can make these private responses more fair and revealing lessons the private criminal justice system can teach reformers of the public criminal justice system *Measuring Prison Performance* Gerald G. Gaes,Scott D. Camp,Julianne B. Nelson,William G. Saylor,2004-09-14 Gaes and his distinguished coauthors offer a comprehensive analysis of public versus private management of prisons a competition that originated in the 1980s with the introduction of private facilities into the criminal justice system The authors argue that prison performance must be measured in reference to the goals of a particular prison system and introduce the technique of multilevel modeling to allow for simultaneous measurement of the individual and the institution They also show how their analytic framework can be applied to other criminal justice components _prosecution adjudication postrelease supervision policing_ and to evaluating the privatization of almost any publicly administered service They contend that the ability to meaningfully compare public and private prisons can better inform penal policy and improve prison performance and accountability This book will be a valuable resource for public administrators and policy analysts corrections personnel and criminologists **Privatizing Correctional Institutions** Gary W. Bowman,2023-04-14 With more than one million people behind bars the United States imprisons a larger share of its population than any other industrialized nation This has precipitated a serious overcrowding problem with federal and state prisons currently operating well beyond capacity Conventional efforts appear unable to cope with the increasing shortage of beds or with inadequate rehabilitation services A bold solution is required increasingly it is being seen to reside in the private sector This timely volume explores the issues of private versus public financing construction and management of medium and high security prisons Private prisons are not a new concept in the United States They have existed in several forms since the eighteenth century The opening chapters evaluate historical cases of prisons for profit examining the concerns of labor abuses of inmates and the source and resolution of disputes between private and public sectors These chapters argue that the experience gained through privatization does not justify current opposition from civil libertarians or labor unions Chapters dealing with the modern contracting out of complete management and limited services document the growing trend toward privatization and instances of public private partnership in prison

industries The assembled evidence indicates clearly that privately run prisons have shown significant cost savings and good quality of provision for prisoners while still being profitable However the authors caution that these promising results must be reinforced by public safeguards in the contracting stage and monitoring to assure good service and security With the American prison system in disarray the public interest demands that government look beyond the public or private identity of those who wish to provide correctional services and focus instead on who can provide the best services at a given cost It is essential to state that correctional services should attain several objectives and not merely cost minimization The analysis and recommendations presented here will aid in the task Privatizing Correctional Institutions will be of interest to law enforcement officials public policy analysts penologists and criminologists *Introduction to Criminal Justice* Lawrence Travis III, 2017-10-23 This student friendly introductory core text describes the criminal justice process in the United States outlining the decisions practices people and issues involved It provides a solid introduction to the mechanisms of the criminal justice system with balanced coverage of the issues presented by each facet of the process including a thorough review of practices and controversies in law enforcement the criminal courts and corrections Privatizing Correctional Services Fraser Institute (Vancouver, B.C.), 1998 Privatizing Criminal Justice Roger Matthews, 1989-12 Assesses the state of the debate on the privatization of justice Key aspects of the arguments are examined and compared as the authors clarify both the theoretical issues and the practical problems involved in the privatization of justice **Introduction to Criminal Justice** Lawrence F. Travis III, 2010-04-07 This student friendly introductory core text describes the criminal justice process in the United States outlining the decisions practices people and issues involved It provides a solid introduction to the mechanisms of the criminal justice system with balanced coverage of the issues presented by each facet of the process including a thorough review of practices and controversies in law enforcement the criminal courts and corrections Each chapter is enhanced by important terms boxes photos and review questions Includes a glossary *Introduction to Criminal Justice* Bradley D. other controversial private justice options as preferable to government's pervasive and misguided criminal justice role.
