The Privatization of Police in America James F. Pastor, 2003-10-28 Today the private security industry employs approximately 1 5 million people and spends over 52 billion annually In contrast public police forces employ approximately 600 000 people and spend 30 billion annually Private policing promises to be a big part of the response to today s increased security concerns as citizens realize that security is much more than the presence of guards and the perception of safety This book addresses the impact and implications of private policing on public streets and begins with a look at private policing from conceptual historical economic legal and functional perspectives These approaches provide the background for the text which focuses on a private policing patrol program in a community on the south side of Chicago The text also demonstrates a number of substantive legal and public policy issues which directly or indirectly relate to the provision of security services some people see the need for a dual system of policing one for the wealthy and one for the poor and others see the provision of private security as the primary protective resource in contemporary America The author also examines how private policing is different from and similar to public policing

Law and Society in a Populist Age Amitai Etzioni, 2018-07-11 The law based political institutions in many democratic societies are being challenged by fast growing populist movements parties and leaders In other nations the state is failing These seismic changes call for greater attention to be paid to the role society plays in forming and challenging laws and how the law copes with these challenges Amitai Etzioni one of the most respected thinkers in the US argues for a new liberal communitarian approach as an effective response to populism This recognizes that different members of the society have differing values interests and needs that cannot be fully reconciled to legislation in a populist age The book considers the core challenge in a variety of contexts including national security versus privacy private sector responsibility freedom of the press campaign finance reform regulatory law and the legal status of terrorists Thus the book offers a timely discussion of key issues for contemporary society and the relationship of the law to the citizen in a fast changing environment

The Privatization of Fraud Investigation Petter Gottschalk, 2019-09-19 This book discusses privatization of law enforcement in relation to suspected corporate crime and recommends guidelines for successful fraud examinations There is a growing business for global auditing and local law firms to conduct internal investigations at client organizations when there is suspicion of white collar misconduct and crime This book reflects on the work by these private fraud examiners in terms of

an evaluation of their investigation reports The book brings an original theoretical and methodological approach to investigations of white collar crime It develops the theory of convenience as an explanation for motive opportunity and willingness to commit and conceal white collar crime This theory is then related to the case studies Structured in such a way as to allow the reader to use the text as a nonsequential reference source or guide to a set of connected issues the book illustrates the practice of privatization by cases and presents guidelines for successful fraud examination As an investigation can lead to conviction and incarceration this privatization of crime investigation feeds into the larger issue of privatization of policing The work will be a valuable resource for students academics and practitioners working in the areas of Criminal Justice Corporate Law and Business **Criminology, Penology, and Police Science Abstracts** ,1995 **Privatizing Correctional Institutions** Gary W. Bowman,2023-04-14 With more than one million people behind bars the United States imprisons a larger share of its population than any other industrialized nation This has precipitated a serious overcrowding problem with federal and state prisons currently operating well beyond capacity Conventional efforts appear unable to cope with the increasing shortage of beds or with inadequate rehabilitation services A bold solution is required increasingly it is being seen to reside in the private sector This timely volume explores the issues of private versus public financing construction and management of medium and high security prisons Private prisons are not a new concept in the United States They have existed in several forms since the eighteenth century The opening chapters evaluate historical cases of prisons for profit examining the concerns of labor abuses of inmates and the source and resolution of disputes between private and public sectors These chapters argue that the experience gained through privatization does not justify current opposition from civil libertarians or labor unions Chapters dealing with the modern contracting out of complete management and limited services document the growing trend toward privatization and instances of public private partnership in prison industries The assembled evidence indicates clearly that privately run prisons have shown significant cost savings and good quality of provision for prisoners while still being profitable However the authors caution that these promising results must be reinforced by public safeguards in the contracting stage and monitoring to assure good service and security With the American prison system in disarray the public interest demands that government look beyond the public or private identity of those who wish to provide correctional services and focus instead on who can provide the best services at a given cost It is essential to state that correctional services should attain several objectives and not merely cost minimization The analysis and recommendations presented here will aid in the task Privatizing Correctional Institutions will be of interest to law enforcement officials public policy analysts penologists and criminologists **American Doctoral Dissertations** ,2002 Martindale-Hubbell Directory of Experts & Legal Services ,2007 **Sociological Abstracts** ,2004 CSA Sociological Abstracts abstracts and indexes the international literature in sociology and related disciplines in the social and behavioral sciences The database provides abstracts of journal articles and citations to book reviews drawn from over 1 800 serials
