Aspekte der Entwicklungssoziologie René König,2013-03-09 OBER EINIGE OFFENE FRAGEN UND UNGELÖSTE PROBLEME DER ENTWICKLUNGSFORSCHUNG Von René König I Das 18 und 19 Jahrhundert geht mit dem sozialen Aufstieg der Arbeiterklasse in den Industriegesellschaften dem Aufbau des Sozialismus als Antwort auf die soziale Frage des 20 und 21. Jahrhunderts wird dem Ausbau eines neuen geistigen Systems der sozialen Weltgestaltung gehen das wohl oder bei der Herausforderung stehen muß die mit dem Zerfall der Welt in arme und reiche Nationen gesetzt ist Diese Herausforderung gewinnt insofern eine höchst gewichtige Bedeutung für unsere Gegenwart und die Zukunft als sie sich keineswegs erst seit gestern angebahnt hat etwa seit dem Ende des zweiten Weltkrieges wie so viele kurzatmige Analytiker meinen vielmehr ist sie mit ihren entscheidenden Anfängen genauso alt wie die kritische Entwicklungsphase des Industriezeitalters die mit der Erfindung der Dampfmaschine durch James Watt im Jahre 1769 anhebt Bis zu diesem Augenblick lebten die alten Kulturen in Ost und West in Nord und Süd ungefähr auf dem gleichen Fuß wobei man vielleicht sagen kann daß man mehr der heute als wirtschaftlich unterentwickelten Kulturen damals zuzeiten sogar eine gewisse Überlegenheit beider die Europäer hatten Problèmes du travail et politique sociale au Congo belge Arthur Doucy,Pierre Feldheim,1952

Psychology in Africa (Psychology Revivals) Mallory Wober, 2014-06-17 It is now well over a hundred and fifty years since the first celebrated geographical explorations of Africa took place However it was many years before there began quests of a different kind the investigation of behaviour personality attitude and ability among Africa s people Originally published in 1975 this book is an account of that work the first explorations in Africa of psychology In an exhaustive and well documented report the author a psychologist who had himself done research in Nigeria Uganda and who had lectured at Makerere University drew together the main threads of the research carried out so far putting the issues in an African perspective but anchoring them firmly within the framework of modern psychological thinking and technique of the time Are there any common personality and intellectual characteristics among Africans How does weaning affect African child development How have Africans feelings developed about city life and industrial work The questions the author considers range from the broad based to the specific The challenges which lay ahead for African investigators then moving into the mainstream of the work are also discussed But perhaps above all the book made a convincing case for psychology becoming a relevant and finely honed discipline in Black Africa characterised by practical application to Black African society Each chapter covers a defined area of modern psychology of the time and presents a comprehensive survey in a language no more technical than the subject warrants At the time it was felt this book would be invaluable to students of Africa secondary education whose course included a psychology component and to African students beginning a degree course in psychology It would also have provided an informative supplement to courses in medicine development studies political science sociology and anthropology
