The Paradox of Grammatical Change Ulrich Detges, Richard Waltereit, 2008-01-01 Recent years have seen intense debates between formal generative and functional linguists particularly with respect to the relation between grammar and usage This debate is directly relevant to diachronic linguistics where one and the same phenomenon of language change can be explained from various theoretical perspectives In this a close look at the divergent and or convergent evolution of a richly documented language family such as Romance promises to be useful The basic problem for any approach to language change is what Eugenio Coseriu has termed the paradox of change if synchronically languages can be viewed as perfectly running systems then there is no reason why they should change in the first place And yet as everyone knows languages are changing constantly In nine case studies a number of renowned scholars of Romance linguistics address the explanation of grammatical change either within a broadly generative or a functional framework

Mapping Writing Revisions through

Keystroke Logging Tanzeela Anbreen, 2025-12-29 This book presents Keystroke Logging as a powerful methodological tool for investigating writers revision processes in writing The volume demonstrates the ways in which Keystroke Logging can be used to observe record and analyse writing revisions in real time especially useful given the growing use of computer facilitated academic writing Drawing on an integrated approach implementing both real time observation and immediate stimulated recall Anbreen seeks to bridge the gap between theory and practice by bringing together theoretical understandings of writing revisions with practical applications of Keystroke Logging The work makes the case for the use of Keystroke Logging in computer based writing research to better elucidate the cognitive processes L2 writers engage in during the revision process This book will be of interest to students scholars and relevant stakeholders in applied linguistics second language writing academic writing language learning and teaching and educational technology

Linguistic Dating of Biblical Texts: An introduction to approaches and problems. Introduction ; Early vs. late biblical Hebrew. Principles and methodology ; Critique of principles ; Critique of methodology ; Linguistic features and rates of accumulation ; Hebrew inscriptions of the Monarchic period ; Dialects and diglossia ; Aramaic Mishnaic Hebrew Qumran Hebrew and Ben-Sira ; Loanwords ; Archaic biblical Hebrew ; Textual criticism ; Conclusion Ian Young, 2008 Since the beginning of critical scholarship biblical texts have been dated using linguistic evidence In recent years this has become a controversial topic Volume 1 introduces the field of linguistic dating of biblical texts with many texts samples presented for study Volume 2 begins with a book by book survey of scholarship on the origins of biblical sources passages and books followed by a detailed synthesis of the topics introduced in the first volume The authors argue that the scholarly use of language in dating biblical texts and even the traditional standpoint on the chronological development of biblical Hebrew require a thorough re evaluation and propose a new perspective on linguistic variety in biblical Hebrew Early Biblical Hebrew EBH and Late Biblical Hebrew LBH do not represent different chronological periods in the history of biblical Hebrew but instead represent co existing styles of literary Hebrew throughout the biblical period
