Radio The Forgotten Medium

Gerry L. Dexter

Radio The Forgotten Medium:

Radio-- Edward C. Pease, Everette E. Dennis, Although television is now dominant radio surprisingly remains a medium of unparalleled power and importance Worldwide it continues to be the communications vehicle with the greatest outreach and impact Every indicator economic demographic social and democratic suggests that far from fading away radio is returning to our consciousness and back into the cultural mainstream Marilyn J Matelski reviews radio's glory days arguing that the glory is not all in the past B Eric Rhoads continues Matelski's thoughts by explaining how and why radio has kept its vitality The political history of radio is reviewed by Michael X Delli Carpini while David Bartlett shows how one of radio's prime functions has been to serve the public in time of disaster Other contributors discuss radio as a cultural expression the global airwaves and the economic regulatory social and technological structures of radio Collectively the contributors provide an intriguing study into the rich history of radio and its impact on many areas of society It provides a wealth of information for historians sociologists and communications and media scholars Above all it helps explain how media intersect change focus but still manage to survive and grow in a commercial environment

Communication Technology Update

August E. Grant, Ashley J. Bennington, 2014-05-16 Communication Technology Update Third Edition provides the latest information on as many communication technologies as possible using as many specific statistics on market share units sold etc as possible to allow comparison among the technologies This book is designed to help make sense of the spectrum of communication technologies The text explores the widest possible range of technologies from broadcast to telephony and from wired to wireless In discussing each technology this book will not only deal with the hardware of the technology but also with the software organizational structure political and economic influences and individual users of the technologies Major developments in each of these areas are presented for each technology along with background information to help explain the major factors in the evolution of the technology The first chapter begins by defining communication technology and introducing the umbrella perspective used to present and analyze each technology Following this discussion an overview of the remainder of the book is presented This book targets two groups of users One of which is the group of communication professionals who have a desire to keep up with the latest developments both within and adjacent to their particular fields Second is the group of students who are studying communication technology and need information that is more current than that provided by a textbook and more comprehensive than that found in trade magazines

Literature as Document

, 2019-03-19 Literature as Document considers the relationship between documents and literary texts in Western Literature of the 1930s More specifically the volume deals with the notion of the document and its multifaceted and complex connections to literary texts and attempts to provide answers to the problematic nature of that relationship In an effort to determine a possible theoretical definition many different disciplines have been taken into account as well as individual case studies In order to observe dynamics and trends the idea for this investigation was to look at literature taking its practices its

factual looking and concrete applications as a point of departure that is to say then starting from the literary object itself

Media Ownership and Concentration in America Eli M. Noam, 2009-10-19 The concentration of private power over media has been the subject of intense public debate around the world Critics have long feared waves of mergers creating a handful of large media firms that would hold sway over public opinion and endanger democracy and innovation But others believe with equal fervor that the Internet and deregulation have opened the media landscape significantly How concentrated has the American information sector really become What are the facts about American media ownership In this contentious environment Eli Noam provides a comprehensive and balanced survey of media concentration with a methodical scientific approach He assembles a wealth of data from the last 25 years about mass media such as radio television film music and print publishing as well as the Internet telecommunications and media related information technology After examining 100 separate media and network industries in detail Noam provides a powerful summary and analysis of concentration trends across industries and major media sectors He also looks at local media power vertical concentration and the changing nature of media ownership through financial institutions and private equity The results reveal a reality much more complex than the one painted by advocates on either side of the debate They show a dynamic system that fluctuates around long term concentration trends driven by changing economics and technology *Media Ownership and Concentration in America* will be essential reading and a trove of information for scholars and students in media telecommunications IT economics and the history of business as well as media industry professionals business researchers and policy makers around the world Critics and defenders of media trends alike will find much that confirms and refutes their world view But the next round of their debate will be shaped by the facts presented in this book

Methods of Historical Analysis in Electronic Media Donald G. Godfrey, 2006-08-15 *Methods of Historical Analysis in Electronic Media* provides a foundation for historical research in electronic media by addressing the literature and the methods traditional and the eclectic methods of scholarship as applied to electronic media It is about history broadcast electronic media history and history that has been broadcast and also about the historiography research written and the research yet to be written Divided into five parts this book addresses the challenges in the application of the historical methods to broadcast history reviews the various methods appropriate for electronic media research based on the nature of the object under study suggests new approaches to popular historical topics takes a broad topical look at history in broadcasting and provides a broad overview of what has been accomplished a historian's challenges and future research Intended for students and researchers in broadcast history *Methods of Historical Analysis in Electronic Media* provides an understanding of the qualitative methodological tools necessary for the study of electronic media history and illustrates how to find primary sources for electronic media research

Media Studies Journal, 1995

Rethinking the Media Audience Pertti Alasuutari, 1999-08-31 Pertti Alasuutari provides a state of the art summary of the field of audience research With contributions from Ann Gray Joke Hermes John Tulloch and David Morley a

case is presented for a new agenda to account for the role of the media in everyday life Muslim Education Quarterly, 1998 The Remaking of Radio Vincent M. Ditingo, 1995 In this era of advancing media technology radio has endured because it has successfully adapted to change The Remaking of Radio is a comprehensive examination of those adaptations and of the many factors shaping today's ten billion dollar commercial radio industry Media expert Vincent M Ditingo explores and explains the principal characteristics of radio's new age including The initial deregulation of the industry by the FCC resulting in a financial investment frenzy The introduction of satellite technology broadening the scope of networks while creating a trend back to the national personality programs of the 1930s and 1940s AM's decline as a result of the explosive growth of FM and its partial recovery with the boom in talk radio Radio's strengthened financial stability stemming from the FCC's relaxation of local and national ownership limits and The move towards digital audio transmissions improving radio's service to both advertisers and listeners Vincent M Ditingo is an award winning business writer media consultant and educator He is a former senior editor of radio for Broadcasting and Cable and is founder and president of Ditingo Media Enterprises in New York City **Medium Law** Daithí Mac Síthigh, 2017-09-13 Why should anyone care about the medium of communication today especially when talking about media law In today's digital society many emphasise convergence and seek new regulatory approaches In Medium Law however the medium theory insights of Harold Innis Marshall McLuhan and the Toronto School of Communication are drawn upon as part of an argument that differences between media and technological definitions continue to play a crucial role in the regulation of the media Indeed Mac Síthigh argues that the idea of converged cross platform medium neutral media regulation is unattainable in practice and potentially undesirable in substance This is demonstrated through the exploration of the regulation of a variety of platforms such as films games video on demand and premium rate telephone services Regulatory areas discussed include content regulation copyright tax relief for producers and developers new online services conflicts between regulatory systems and freedom of expression This timely and topical volume will appeal to postgraduate students and postdoctoral researchers interested in fields such as Law Policy Regulation Media Studies Communications History and Cultural Studies *Media Studies: Content, audiences, and production* Pieter Jacobus Fourie, 2001 This book includes theoretical approaches as well as a production section that focuses on basic techniques and introductory applications of media studies **Contemporary Authors New Revision Series**, 2001-08 In response to the escalating need for up to date information on writers Contemporary Authors New Revision Series brings researchers the most recent data on the world's most popular authors These exciting and unique author profiles are essential to your holdings because sketches are entirely revised and up to date and completely replace the original Contemporary Authors entries For your convenience a soft cover cumulative index is sent biannually While Gale strives to replicate print content some content may not be available due to rights restrictions Call your Sales Rep for details *Westward*, 1954 *Sponsor*, 1963 Technologies for Learning Outside the Classroom John A. Niemi, Dennis D.

Gooler,1987 Fund-Raising James M. Greenfield,1991-04-17 Covers initial preparation and 15 areas of fund raising and discusses the ongoing management of the process Designed for fund raising executives of organizations both large and small Included are numerous examples case studies check lists and a unique evaluation of the audit environment of nonprofit organizations **Muzzled Media** Gerry L. Dexter,1986 *Media Decisions* ,1975 **Media, Politics, and Culture** Carl Gardner,1979 **Educational Broadcasting** ,1974
