Railway World, 1883 *An Historical Geography of Railways in Great Britain and Ireland* David Turnock, 2016-12-05

Association of American Railroads. Bureau of Railway Economics, 1914 *China's High-Speed Rail Development* Martha Lawrence, Richard Bullock, Ziming Liu, 2019-06-24 Over the past decade China has built 25 000 km of dedicated highspeed railway more than the rest of the world combined What can we learn from this remarkable experience China s High Speed Rail Development examines the Chinese experience to draw lessons for countries considering investing in high speed rail The report scrutinizes the planning and delivery mechanisms that enabled the rapid construction of the high speed rail system It highlights the role of long term planning consistent plan execution and a joint venture structure that ensures active participation of provincial and local governments in project planning and financing Traffic on China s high speed trains has

grown to 1.7 billion passengers a year. The study examines the characteristics of the markets for which high speed rail is competitive in China. It discusses the pricing and service design considerations that go into making high speed rail services competitive with other modes and factors such as good urban connectivity that make the service attractive to customers. One of the most remarkable aspects of the Chinese experience is the rapid pace of high quality construction. The report looks at the role of strong capacity development within and cooperation among China Railway Corporation, rail manufacturers, universities, research institutions, laboratories and engineering centers that allowed for rapid technological advancement and localization of technology. It describes the project delivery structures and incentives for delivering quality and timely results. Finally, the report analyzes the financial and economic sustainability of the investment in high speed rail. It finds that a developing country can price high speed rail services affordably and still achieve financial viability, but this requires very high passenger density. Economic viability similarly depends on high passenger density.

Railway World, 1910 The Builder, 1877 **Tramway and Railway World**, 1957 **The Advertiser's ABC of Official Scales & Charges and Advertisement Press Directory**, 1896 **The Railway Magazine**, 2005 **Demorests' Monthly Magazine**, 1882 **New York Railroad Men**, 1894 **Railway News, Finance and Joint-stock Companies' Journal**, 1914 *The Works of William Makepeace Thackeray: Roundabout papers and The second funeral of Napoleon* William Makepeace Thackeray, 1879 **Engineering News**, 1892 *Railway equipment* Marshall Monroe Kirkman, 1898 The World's Book of Knowledge and Universal Educator, 1901 **Railway Journal ...**, 1898 **The Russian Revolution of 1917 - Memory and Legacy** Carol S. Leonard, Daniel Orlovsky, Jurej Petrov, 2024-07-30

The way in which the Russian Revolution of October 1917 is regarded and commemorated has changed considerably over time and is a contentious subject well demonstrated by the absence of any official commemoration in Russia in 2017, a huge contrast to the very large celebrations which took place in Soviet times. This book, which brings together a range of leading historians of the Russian Revolution from both Russia and the West and both younger and older historians, explores the changes in the way in which the October 1917 Revolution is commemorated and also examines fundamental questions about what the Russian Revolution indeed was, what any revolution was anyway. Among the issues covered are how Soviet and Western historians diverged in their early assessments of what the Revolution achieved, how the period studied by historians has recently extended both much earlier before 1917 and much later afterwards, and how views of the Revolution within the Soviet Union changed over time from acceptance of the official Communist Party interpretation to more independent viewpoints. Overall, the book provides a major reassessment of one of the twentieth century's most important events.
