Decolonising and Reimagining Social Work in Africa Sharlotte Tusasiirwe, 2023-07-07 This book explores contemporary debates on decolonisation and indigenisation of social work in Africa and provides readers with alternative models values and epistemologies for reimagining social work practice and education that can be applicable to a wide range of countries struggling with similar concerns It examines how indigenisation without decolonisation is just tokenistic since it is concerned with adapting modifying Western models to fit local contexts or generating local models to integrate into the already predominantly contextually irrelevant and culturally inappropriate mainstream Western social work in Africa By exploring decolonisation which calls for dismantling colonialism and colonial thinking to create central space for indigenous social work as mainstream social work especially in Africa it goes beyond tokenistic decolonisation to articulate some of the indigenous social work practice and social policy models values ethics and oral epistemologies that should take centre stage as locally relevant and culturally appropriate social work in Africa It also addresses the question of decolonising research methodologies highlighting some of the methods embedded in African indigenous perspectives for adoption when researching African social work The book has been written with both the coloniser colonised in mind and it will be of interest to all social work academics students and practitioners and others interested in gaining insights into how colonisation persists in social work and why it is necessary to find ways to disrupt it **Re-Imagining the First World War** Anna Branach-Kallas, Nelly Strehlau, 2015-09-18 In the Preface to his ground breaking *The Great War and Modern Memory* 1975 Paul Fussell claimed that the dynamics and iconography of the Great War have proved crucial political rhetorical and artistic determinants on subsequent life Forty years after the publication of Fussell's study the contributors to this volume reconsider

whether the myth generated by World War I is still part of the fiber of people's lives in English speaking countries What is the place of the First World War in cultural memory today How have the literary means for remembering the war changed since the war Can anything new be learned from the effort to re imagine the First World War after other bloody conflicts of the 20th century A variety of answers to these questions are provided in *Re Imagining the First World War New Perspectives in Anglophone Literature and Culture* which explores the Great War in British Irish Canadian Australian and post colonial contexts The contributors to this collection write about the war from a literary perspective reinterpreting poetry fiction letters and essays created during or shortly after the war exploring contemporary discourses of commemoration and presenting in depth studies of complex conceptual issues such as gender and citizenship *Re Imagining the First World War* also includes historical philosophical and sociological investigations of the first industrialised conflict of the 20th century which focus on responses to the Great War in political discourse life writing music and film from the experience of missionaries isolated during the war in the Arctic and Asia through colonial encounters exploring the role of Irish Chinese and Canadian First Nations soldiers during the war to the representation of war in the world famous series *Downton Abbey* and the 2013 album released by contemporary Scottish rock singer Fish The variety of themes covered by the essays here not only confirms the significance of the First World War in memory today but also illustrates the necessity of developing new approaches to the first global conflict and of commemorating new victims and agents of war If modes of remembrance have changed with the postmodern ethical shift in historiography and cultural studies which encourages the exploration of other subjectivities in war so far concealed affinities and reverberations are still being discovered on the macro and micro historical levels the Western and other fronts the battlefield and the home front Although it has been a hundred years since the outbreak of hostilities there is a need for increased sensitivity to the tension between commemoration and contestation and to re member re conceptualise and re imagine the Great War *Everyday Imagining and Education (RLE Edu K)*
