[Hiring Manager's Name]

123 Company Address

Company's City, State, Zip Code

(xxx) xxx-xxxx

Dear [Mr./Ms./Mx.] [Hiring Manager's Last Name],

The first paragraph should contain a self-introduction. Write who you are, where your expertise lies, where you found the job posting (or who referred you), and why you want to apply.

The second paragraph should respond directly to the job description. Describe how your relevant experiences, skills, and abilities help you meet the company's needs. To make that easier, you can (and should) literally include words and phrases from the job description here.

- You can also include a bulleted list of your accomplishments
- Make sure you quantify (add numbers to) these bullet points
- A cover letter with numbers is 100% better than one without

To go the extra mile, research the company and try to find out what they are doing — and why— given the current state of their industry. Explain how you can fit into that framework, and help push the company forward and achieve any goals you suspect they have.

The final paragraph is the "call to action" portion of your cover letter. Inform the hiring manager that you'd love to get interviewed. Give them your contact information. Tell them you'll reach out again next week if you don't hear back. Thank them for their time.

Sincerely,

Thomas Beasley

Exploring Professional Communication Stephanie Schnurr, 2024-08-19 Routledge Introductions to Applied Linguistics is a series of introductory level textbooks covering the core topics in applied linguistics primarily designed for those beginning postgraduate studies or taking an introductory MA course as well as for advanced undergraduates. Titles in the series are also ideal for language professionals returning to academic study. The books take an innovative practice to theory approach with a back to front structure. This leads the reader from real world problems and issues through a discussion of intervention and how to engage with these concerns before finally relating these practical issues to theoretical foundations. Additional features include tasks with commentaries, a glossary of key terms and an annotated further reading section. *Exploring Professional Communication* provides an accessible overview of the vast field of communication in professional contexts from an applied linguistics perspective. It explores the nature of professional communication by discussing various fundamental topics relevant for an understanding of this area. The book is divided into eight chapters each dealing with a specific area of professional communication such as genres of professional communication, identities in the workplace and key issues of gender, leadership and culture. Although the book's main approach to professional communication is an applied linguistics one, it also draws on insights from a range of other disciplines. This second edition has been substantially revised and updated and includes coverage of the most recent developments in the area. New topics include Remote and virtual communication as well as technology assisted communication. The impact of the pandemic on professional communication. Gender in professional communication post metoo. Intersectional issues. A new chapter on researching professional communication. Throughout Stephanie Schnurr takes an interactive approach that is reflected in the numerous examples of authentic discourse data from a variety of written, spoken and multimodal contexts. *Exploring Professional Communication* is critical reading for postgraduate and upper undergraduate students of applied linguistics and communication studies. Health Promotion & Education Research Methods Randall R. Cottrell, James F. McKenzie, 2010-01-14 The main objective in writing a thesis or dissertation is to teach students how to conduct research in a planned and systematic way. *Health Promotion Education Research Methods* Second Edition provides an overview of the different approaches to research methods and introduces students to the five chapter thesis or dissertation format.
