Foreign Direct Investment in Latin America and the Caribbean 2017 United Nations. Economic Commission for Latin America and the Caribbean,2018-01-15 This publication sets out and analyses the main foreign direct investment FDI trends in the countries of Latin America and the Caribbean The 2017 edition shows that the region is at a difficult juncture FDI inflows declined by 7.9% in 2016 to US 167.043 billion representing a cumulative fall of 17.0% since the peak in 2011 The fall in commodity prices continues to affect investments in natural resources sluggish economic growth in several countries has slowed the flow of market seeking capital and the global backdrop of technological sophistication and expansion of the digital economy has concentrated transnational investments in developed economies

Des robots

dans la ville Jean-Louis Missika, Pierre Musseau, 2018-10-04 L'arrivée des voitures autonomes est imminente. Elles sont déjà testées dans de nombreux pays dont la France. Ce nouveau mode de transport va profondément transformer nos vies, nos villes et notre société. Or, personne n'est vraiment prêt pour ce bouleversement. Dans ce livre très documenté, les auteurs montrent que cette révolution technologique va entraîner de multiples révolutions. Faut-il dire adieu à la voiture individuelle ? La profession de chauffeur-livreur est-elle vouée à disparaître en provoquant un chômage de masse ? Qui détiendra le pouvoir sur les données, les algorithmes et l'organisation de cette nouvelle mobilité ? Des géants du numérique américains ou chinois ? Ou des villes gouvernées démocratiquement ? Ce livre s'adresse aux citoyens comme aux pouvoirs publics, si on ne réfléchit pas cet avenir très proche, toutes les dérives sont possibles. Le débat doit sortir du cercle des experts car il nous concerne tous. Et ce n'est pas de la science-fiction : la voiture robot est au coin de la rue.

The Brains and Brawn Company: How Leading Organizations Blend the Best of Digital and Physical Robert Siegel, 2021-07-27 A Top Financial Times Recommended Business Book. The Brains and Brawn Company is the grounded, clear-sighted guide you need to blend digital and traditional business functions for long-term competitive advantage. Business leaders are continually told they need to embrace digital disruption wholeheartedly to thrive in the 21st Century. Legacy companies we hear are all doomed to fail unless they double down on the latest digital innovations and disruptors are ordained to take over the world. Digital innovation is the answer to everything. False. Nothing in life or business is ever that simple. In *The Brains and Brawn Company: How Leading Organizations Blend the Best of Digital and Physical*, venture capitalist and Stanford Business School lecturer Robert Siegel brings the digital innovation conversation back down to earth. He shows that while important, digital is only part of the answer and it's never the only answer. The vast majority of successful leaders from both incumbents and disruptors focus as much on things like logistics, manufacturing and distribution as they do on digital innovation. In fact, many established companies are successfully countering young upstarts in other creative ways, and many new organizations are learning from their older brethren. Siegel shows how to create lasting profits and growth in the smartest way possible by creating a solid partnership between digital innovation and traditional business operations. In other words, by marrying brains and brawn. He lays out the core competencies that today's industry leaders have mastered and explains how Charles Schwab uses cutting-edge analytics to better serve millions of investors without violating its original code of values. Align Technology transformed orthodontia by developing creative new business models along with new products. Kaiser Permanente taps into the power of empathy to improve patient satisfaction while controlling costs. Instacart balances ownership and partnerships to balance the needs of four key constituencies. Target, Best Buy and Home Depot found different ways to blend the best aspects of physical retail with innovative e-commerce. Desktop Metal is innovating high-volume yet affordable production methods that can revolutionize manufacturing. Filled with original research and case studies of Daimler, 23andMe, Instacart, AB InBev, Google and many other companies, *The Brains and Brawn Company: How Leading Organizations Blend the Best of Digital and*

Physical provides practical proven insights and advice for bridging the gulf between digital vs physical disruptor vs incumbent startup world vs Fortune 500 and tech culture vs industrial culture The Brains and Brawn Company How Leading Organizations Blend the Best of Digital and Physical provides everything you need to set your company apart from your competitors in real and measurable ways and take the lead in your industry for years to come **The Last Driver's License Holder Has Already Been Born: How Rapid Advances in Automotive Technology will Disrupt Life As We Know It and Why This is a Good Thing** Mario Herger,2019-07-26 How the radical disruption of the auto industry affects you and how you can prepare for the soon to be new normal The combined effect of autonomous driving electric vehicles and the sharing economy is on the verge of changing the auto industry all within the next decade And this tech economics revolution will touch virtually every industry What exactly will change Jobs Demand for commercial vehicle drivers car dealers mechanics doctors and many other professions will shrink Laws Manually driving cars will be forbidden and car ownership will be almost nonexistent Housing Prices will drop and cities and towns will be planned differently Healthcare Infrastructure will shrink as traffic accidents dramatically decline Global trade China will become the world s biggest automotive exporter The Last Driver s License Holder Has Already Been Born provides the information and insight you need to position your company for these groundbreaking changes It reveals the disruptive technologies now taking shape and provides a timeline of when they will take hold It examines the impact on the industry itself as well as adjacent sectors including jobs and professions city and street design hospitals insurances politics security hospitality industry the oil industry real estate and society at large And it provides the knowledge and insight you need to keep yourself and your organization ahead of the curve and in front of the competition **Foreign Direct Investment in Latin America and the Caribbean 2018** United Nations,2019-01-30 This publication sets out and analyses the main foreign direct investment FDI trends in the countries of Latin America and the Caribbean In 2017 certain trends that had already emerged in the global economic landscape became more established In particular announcements of potential restrictions on trade and pressures to relocate production to developed countries were confirmed At the same time China has taken steps to restrict outflows of foreign direct investment FDI in order to align these flows with its strategic plan Adding to these factors is the expansion of digital technologies whose international expansion requires smaller investments in tangible assets Firms in these areas are heavily concentrated in the United States and China which reduces the need for cross border mergers and acquisitions **Electric Vehicle Engineering (PB)** Per Enge,Nick Enge,Stephen Zoepf,2021-01-24 A complete guide to electric vehicle design operation and adoption This hands on resource thoroughly explains the technologies and techniques involved in the design and operation of today s electric vehicles Originally written for use in a course co taught by the authors at Stanford University Electric Vehicle Engineering discusses the physics of vehicle motion the electrical principles on which motors rely the chemistry operation and charging of lithium ion batteries the design and operation of motor controllers the energy
