The Death of Childhood Victor Strasburger, 2019-04-16 Written by an international expert on the effects of media on children The Death of Childhood provides a fascinating and sobering look at what it means to grow up in America today Following in the footsteps of Neil Postman Marie Winn and Mary Pipher this riveting and heart breaking book

is an obituary to childhood exploring its origins and tracing its progress to what could be its bitter end in the early 21st century if we don't act now to resuscitate it. No longer are we raising children in the idyllic world that many of today's grandparents and parents remember a world filled with kick the can unsupervised bike adventures and dog walking and the freedom to explore. Now thanks to the Internet, new technology and social networking, the complexion of childhood has changed and there are no adult secrets anymore; the answer to every question exists a fingertip's reach away in cyberspace. It's not just technology and media that are changing childhood; it's also suffering the effects of underfunded schools, inattentive parents, a plethora of guns and a hostile society. Despite all of that, this book shows that there is hope and offers solutions to restore the charm and innocence of childhood. **CD-ROMs in Print**, 1997
