are afraid they may the truth is that the child is going through so many things If you use the same old parenting ways of dealing with toddlers you just may lose your teenager to whatever it is you are trying so hard to keep him her away from Your child is not exactly the little kid you once knew they are now teens who need to be treated as teens and if you don t get it right you probably may be setting yourself up for failure and unnecessary headaches One of the biggest problems that many of us parents have is our approach to teen parenting With the many horror stories that we may have come across regarding teen parenting we end up approaching parenting teenagers as an ordeal that we are very much incapable of handling That s why we feel that we can only helplessly watch as our teens turn into some unpredictable monsters Well raising teens does not have to be that way You can parent them in a way that increases the chances of turning out well If you are looking for information on how to go about it this book has all the information you need to bring them up in a way that guarantees less friction and increases their chances of becoming responsible adults after making it through their teenage years successfully
