Arts of Sound and Light Ronald Pellegrino, 1983 **The Post-Utopian Imagination** M. Keith Booker, 2002-01-30 In America the long 1950s were marked by an intense skepticism toward utopian alternatives to the existing capitalist order. This skepticism was closely related to the climate of the Cold War in which the demonization of socialism contributed to a dismissal of all alternatives to capitalism. This book studies how American novels and films of the long 1950s reflect the loss of the utopian imagination and mirror the growing concern that capitalism brought routinization, alienation, and other dehumanizing consequences. The volume relates the decline of the utopian vision to the rise of late capitalism with its expanding globalization and consumerism and to the beginnings of postmodernism. In addition to well-known literary novels such as Nabokov's *Lolita*, Booker explores a large body of leftist fiction, popular novels, and the films of Alfred Hitchcock and Walt Disney. The book argues that while the canonical novels of the period employ a utopian aesthetic that tends to be very weak and is not reinforced by content, the leftist novels on the other hand employ a realist aesthetic but are utopian in their exploration of alternatives to capitalism. The study concludes that the utopian energies in cultural productions of the long 1950s are very weak and that these works tend to dismiss utopian thinking as naïve or even sinister. The weak utopianism in these works tends to be reflected in characteristics associated with postmodernism.
