Rapprochement Or Rivalry:

Rivalry and Alliance Politics in Cold War Latin America Christopher Darnton, 2014-06-30 The success or failure of foreign policy initiatives in Latin America is heavily influenced by bureaucratic and military background players Rivalry and Alliance Politics in Cold War Latin America Christopher Darnton's comparative study of the nature of conflict between Latin American states during the Cold War provides a counterintuitive and shrewd explanation of why diplomacy does or doesn't work Specifically he develops a theory that shows how the parochial interests of state bureaucracies can overwhelm national leaders foreign policy initiatives and complicate regional alliances His thorough evaluation of several twentieth century Latin American conflicts covers the gamut of diplomatic disputes from border clashes to economic provocations to regional power struggles Darnton examines the domestic political and economic conditions that contribute either to rivalry continued conflict or rapprochement diplomatic reconciliation while assessing the impact of U S foreign policy Detailed case studies provide not only a robust test of the theory but also a fascinating tour of Latin American history and Cold War politics including a multilayered examination of Argentine Brazilian strategic competition and presidential summits over four decades three rivalries in Central America following Cuba's 1959 revolution and how the 1980s debt crisis entangled the diplomatic affairs of several Andean countries These questions about international rivalry and rapprochement are of particular interest to security studies and international relations scholars as they seek to understand what defuses regional conflicts creates stronger incentives for improving diplomatic ties between states and builds effective alliances The analysis also bears fruit for contemporary studies of counterterrorism in its critique of parallels between the Cold War and the Global War on Terror its examination of failed rapprochement efforts between Algeria and Morocco and its assessment of obstacles to U S coalition building efforts

Freedman, 1986-11 The Israeli invasion of Lebanon in June 1982 was in many ways a turning point in Middle Eastern politics It spurred the United States to get involved in the Arab Israeli peace process while it weakened the position of PLO leader Nasser Arafat Due to the invasion the United States became heavily enmeshed in the internal politics of Lebanon a morass from which it rather ignominiously extracted itself in February 1984 Ironically neither the Soviet Union nor its ally Syria profited greatly from this debacle The escalation of fighting between Iran and Iraq reinforced the American position in the Middle East Simultaneously the formation of a block of Syria's enemies Egypt Jordan and the Arafat wing of the PLO served to isolate Syria further from the Arab world while giving a new impetus to the peace process These and other key issues are covered in this book which examines Middle East dynamics from three different levels extra regional forces the United States the Soviet Union and Western Europe regional politics intra Arab relations and the Iran Iraq war and local politics Jordan Israel the Palestinians Syria and Egypt giving the reader a multidimensional view of Middle Eastern political dynamics
