## **Rasa In Aesthetics:**

**Rasa in Aesthetics** Priyadarshi Patnaik, 1996-12-31 Dr Patnaik elucidates the fundamentals of the Rasa theory and applies the canons of this theory to various modern Western literary works. Chinese love lyrics and the Japanese haiku poems. Its historical development and recognition are discussed. *Tragic Beauty in Whitehead and Japanese Aesthetics* Steve Odin, 2016-05-19 The present volume endeavors to make a contribution to contemporary Whitehead studies by clarifying his axiological process metaphysics including his theory of values, concept of aesthetic experience and doctrine of beauty along with his philosophy of art, literature and poetry. Moreover, it establishes an east-west dialogue focusing on how Alfred North Whitehead's process aesthetics can be clarified by the traditional Japanese Buddhist sense of evanescent beauty. As this east-west dialogue unfolds, it is shown that there are many striking points of convergence between Whitehead's process aesthetics and the traditional Japanese sense of beauty. However, the work especially focuses on two of Whitehead's aesthetic categories including the penumbral beauty of darkness and the tragic beauty of perishability, while further demonstrating parallels with the two Japanese aesthetic categories of *yugen* and *aware*. It is clarified how both Whitehead and the Japanese tradition have articulated a poetics of evanescence that celebrates the transience of aesthetic experience and the ephemerality of beauty. Finally, it is argued that both Whitehead and Japanese tradition develop an aesthetics of beauty as perishability, culminating in a religious aesthetic vision of tragic beauty and its reconciliation in the supreme ecstasy of peace or nirvana. *The Bloomsbury Research Handbook of Indian Aesthetics and the Philosophy of Art* Arindam Chakrabarti, 2016-02-25 The Bloomsbury Research Handbook of Indian Aesthetics and the Philosophy of Art provides an extensive research resource to the burgeoning field of Asian aesthetics. Featuring leading international scholars and teachers whose work defines the field, this unique volume reflects the very best scholarship in creative analytic and comparative philosophy. Beginning with a philosophical reconstruction of the classical *rasa* aesthetics, chapters range from the nature of art, emotions, tones of thinking and aesthetic education to issues in film theory and problems of the past versus present. As well as discussing indigenous versus foreign in aesthetic practices, this volume covers North and South Indian performance practices and theories alongside recent and new themes including the Gandhian aesthetics of surrender and self-control and the aesthetics of touch in the light of the politics of untouchability. With such unparalleled and authoritative coverage, *The Bloomsbury Research Handbook of Indian Aesthetics and the Philosophy of Art* represents a dynamic map of comparative cross-cultural aesthetics. Bringing together original philosophical research from renowned thinkers, it makes a major contribution to both Eastern and Western contemporary aesthetics. **New Essays in Comparative Aesthetics** Robert Wilkinson, 2009-03-26 Comparative aesthetics is the branch of philosophy which compares the aesthetic concepts and practices of different cultures.
