Deutschland von 1906 1989 **Papers in Game Theory** J.C. Harsanyi, 2013-03-09 This volume contains twelve of my game theoretical papers published in the period of 1956 80 It complements my Essays on Ethics Social Behavior and Scientific Explanation Reidel 1976 and my Rational Behavior and Bargaining Equilibrium in Games and Social Situations Cambridge University Press 1977 These twelve papers deal with a wide range of game theoretical problems But there is a common intellectual thread going through all of them they are all parts of an attempt to generalize and combine various game theoretical solution concepts into a unified solution theory yielding one point solutions for both cooperative and noncooperative games and covering even such non classical games as games with incomplete information SECTION A The first three papers deal with bargaining models The first one discusses Nash's two person bargaining solution and shows its equivalence with Zeuthen's bargaining theory The second considers the rationality postulates underlying the Nash Zeuthen theory and defends it against Schelling's objections The third extends the Shapley value to games without transferable utility and proposes a solution concept that is at the same time a generalization of the Shapley value and of the Nash bargaining solution *Entscheidungstheorie und Ethik* Julian Nida-Rümelin, 1987 **Diskurs und Deziision** Georg Kohler, Heinz Kleger, 1990 **Nationalismus und Rationalität** Carsten Esbach, 2000 *Zeitschrift für philosophische Forschung*, 1990 **Das Gute, das Böse und die Wissenschaft** Evandro Agazzi, 1995 *Aufklärung und Technik* Heiner Hastedt, 1991
