Oppenheimer, Karol Edward So?tan**

Rational Choice And Political Power:

Rational Choice and Political Power Keith Dowding, 2019-07-17 Featuring a substantial new introduction and two new chapters in the Postscript this new edition makes one of the most significant works on power available in paperback and online for the first time The author extensively engages with a body of new literature to elucidate and expand upon the original work using rational choice theory to provide An examination of how due to the collective action problem groups can be powerless despite not facing any resistance Timely engagement with feminist accounts of power An explanation of the relationship of structure and agency and how to measure power comparatively across societies This book s unique interaction with both classical and contemporary debates makes it an essential resource for anyone teaching or studying power in the disciplines of sociology philosophy politics or international relations **Rational Choice and Political Power**

Keith M. Dowding, 2020 Featuring a substantial new introduction and two new chapters in the postscript this new edition makes a significant works on power The author extensively engages with a body of new literature to elucidate and expand upon the original work using rational choice theory to provide an examination of how due to the collective action problem groups can be powerless despite not facing any resistance timely engagement with feminist accounts of power an explanation of the relationship of structure and agency and how to measure power comparatively across societies *Die politischen*

Theorien der Gegenwart Klaus von Beyme, 2000-10-30 Diese bew hrte Einf hrung gibt einen systematischen berblick ber die politischen Theorien des 20 Jahrhunderts Vom Standpunkt des Methodenpluralismus aus f hrt es in die Vielfalt und Dynamik politischer Theoriebildung ein Es werden methodische Ans tze in Beziehung zu den gro en metatheoretischen Schulen gesetzt Die Grundbegriffe der Politik wie Staat Macht politisches System politische Kultur Demokratie Pluralismus werden in ihrer Genesis analysiert und auf ihre Anwendbarkeit hin getestet Das Buch h lt die Mitte zwischen einem Szientismus der Wissenschaft nur f r Wissenschaftler treibt und einer Common Sense Ideologie die eine relative Unabh ngigkeit wissenschaftlicher Theorie von Umgangssprache und Erlebnisinhalten nicht anerkennen will 21st Century Political

Science: A Reference Handbook John T Ishiyama, Marijke Breuning, 2011 Offering full coverage of major subthemes and subfields within political science this reference handbook includes entries on topics from theory and methodology to

international relations and institutions **The Palgrave Handbook of Kenyan History** Wanjala S. Nasong'o, Maurice N. Amutabi, Toyin Falola, 2023-01-25 This volume covers Kenya s history society culture economics politics and environment from precolonial times through the first years of independence The book comprises twenty one chapters divided into two parts Part I focuses on the long precolonial moment detailing the nature of precolonial Kenyan societies and their economics politics gender dynamics and social organization Part II examines Kenyan societies encounters with British colonialism critically outlining the impact and implications of these encounters The volume concludes with an examination of political consolidation after the country s attainment of political independence and the subsequent foundations for political

authoritarianism *Understanding Public Policy* Paul Cairney, 2019-11-08 The fully revised second edition of this textbook offers a comprehensive introduction to theories of public policy and policymaking The policy process is complex it contains hundreds of people and organisations from various levels and types of government from agencies quasi and non governmental organisations interest groups and the private and voluntary sectors This book sets out the major concepts and theories that are vital for making sense of the complexity of public policy and explores how to combine their insights when seeking to explain the policy process While a wide range of topics are covered from multi level governance and punctuated equilibrium theory to Multiple Streams analysis and feminist institutionalism this engaging text draws out the common themes among the variety of studies considered and tackles three key questions what is the story of each theory or multiple theories what does policy theory tell us about issues like evidence based policymaking and how universal are policy theories designed in the Global North This book is the perfect companion for undergraduate and postgraduate students studying public policy whether focussed on theory analysis or the policy process and it is essential reading for all those on MPP or MPM programmes New to this Edition New sections on power feminist institutionalism the institutional analysis and development framework the narrative policy framework social construction and policy design A consideration of policy studies in relation to the Global South in an updated concluding chapter More coverage of policy formulation and tools the psychology of policymaking and complexity theory Engaging discussions of punctuated equilibrium the advocacy coalition framework and multiple streams analysis **Politics from Anarchy to Democracy** Irwin Lester Morris, Joe A. Oppenheimer, Karol Edward So?tan, 2004 Although the study of politics dates to ancient Greece the basic questions that interested those earliest political scientists still linger with us today What are the origins of government What should government do What conditions foster effective governance Rational choice theory offers a new means for developing correctable answers to these questions This volume illustrates the promise of rational choice theory and demonstrates how theory can help us develop interesting fresh conclusions about the fundamental processes of politics Each of the book s three sections begins with a pedagogical overview that is accessible to those with little knowledge of rational choice theory The first group of essays then discusses various ways in which rational choice contributes to our understanding of the foundations of government The second set focuses on the contributions of rational choice theory to institutional analysis The final group demonstrates ways in which rational choice theory helps to understand the character of popular government Handbook of Public Policy B Guy Peters, Jon Pierre, 2006-07-20 The new handbook by Peters and Pierre provides an invaluable addition to the literature It offers new scholars and practitioners a means to navigate many of the complex theoretical and practical issues in contemporary policy analysis Mark Considine University of Melbourne The public policies of governments affect the lives and livelihoods of citizens every day in every country around the world This handbook provides a comprehensive review and guide to the study theory and practice of public policy today Section One Making Policy introduces the policy making

process the means by which public policies are formulated adopted and implemented and serves to review the many competing conceptualizations within the field Section Two Substantive Policy Areas focuses on a number of substantive policy areas to consider both diversity and commonalities across different sectoral policy areas Section Three Evaluating Public Policy addresses issues of policy analysis more directly and assesses successes and failures in public policy in an attempt to answer the question what is good policy The concluding chapter considers the different disciplinary contributions to the research and study of public policy both retrospectively and prospectively Drawing contributions from leading academics and policy analysts from around the world the handbook illustrates the changing role of governments vis vis the public and private sector and the different policy actors national and international governmental and non governmental involved in the policy making process It will be an essential companion for all advanced undergraduates graduates academics and practitioners across public policy and public administration public management government and political science

Democracy, Freedom and Coercion Alain Marciano, Jean-Michel Josselin, 2007-01-01 Democracy Freedom and Coercion is a welcome addition to the public choice literature It steps outside of the often used contractarian perspective and recognizes that all governments are ultimately based on coercion the volume's chapters make important contributions that should be of interest to public choice scholars engaged in this research program Benjamin Powell Public Choice The big picture here is the tension between coercion and freedom within democracy Each essay offers a view of this big picture through a different lens empirical theoretical comparative etc and also offers a different focus on the conceptualisation and measurement of power the legitimacy of economic democracy the identification of the developing pattern of democracy the impact of political violence etc But the essays combine well so that together they illuminate the big picture from a variety of perspectives Thought provoking and challenging an excellent read for anyone interested in the more detailed analysis of the issues that make up the big picture Alan Hamlin University of Manchester UK So much of the academic analysis of democracy focuses on agreement and ignores the fact that all government action ultimately is backed by coercion This volume offers a thoughtful examination of the inherent tensions between liberty and coercion that are an inevitable part of democratic government Randall G Holcombe Florida State University US States need to be strong in order to enforce private property rights yet this very strength can cause problems as representatives of the state can misuse it for their individual goals This dilemma of the strong state has been occupying political philosophers for centuries In this volume to which economists but also political scientists have contributed a number of new and unexpected variations on the topic are explored This makes the volume an exciting read Stefan Voigt University of Marburg Germany The contribution covers the niche between law and economics and the political theory of the state and its constitution Now we can integrate traditional political theory into our doctoral seminars in law and economics a long overdue step ahead Jürgen G Backhaus Erfurt University Germany The essence of democratic power lies in the capacity to protect individual freedom while organizing the necessary coercion

associated with any form of government Yet as the authors of this book maintain developing coercion in order to protect freedom and containing coercion in order to further protect freedom is an arduous task and one that faces any democratic Leviathan The aim of this book is to explore this paradox and to analyse the intricate balance of freedom and coercion in developing states In so doing it considers the legal and institutional conditions under which coercion and violence are admitted and or permitted and how these conditions should be organized in order to preserve and develop freedom as far as possible Democracy Freedom and Coercion comprehensively covers both private and public law both applied and theoretical issues and will therefore be of great interest to students studying law and economics It will also serve as a reference tool to those academics in the field of legal competition especially from the perspective of European issues Rationalität und Organisation 1 Helmut Wiesenthal, 2017-12-11 Der Band enth lt die wichtigsten Beitr ge des Autors zur Theorie rationaler politischer Akteure Ihr Grundthema betrifft die M glichkeiten des Umgangs mit Unsicherheit sei es im Bem hen um konsequenzenbedachte Entscheidungen sei es im Wege der Organisationsgestaltung Die einzelnen Kapitel behandeln entweder Anwendungen der soziologisch informierten Rational Choice Theorie oder sind systematische Reflexionen auf die Eigent mlichkeiten dieses Theorietyps Im Fokus der organisationstheoretischen Texte stehen Analysen kollektiver Akteure Parteien Gewerkschaften Unternehmen und zwar im Hinblick auf deren selbstbez glige und umweltbezogene Entscheidungsproduktion Besondere Aufmerksamkeit gilt der Strategiekompetenz kollektiver Akteure in unsicherer Umwelt sowie den unterschiedlichen Modi des Organisationslernens *Rational Choice and Politics* Stephen Parsons, 2005-03-16 Rational Choice Theory claims to be able to explain how all individuals make not just some of their choices but all of their choices all of the time According to the theory there is no difference in principle between choosing whether to buy apples rather than bananas or choosing whether to join a political revolution instead of staying at home and watching television Given these claims to universal applicability it is perhaps not surprising to find that over the last three or four decades Rational Choice Theory has become increasingly influential as a means of providing explanations in politics The textbook introduces the premises of Rational Choice Theory and illustrates how this theory can be applied to political studies The book concludes with an assessment of the usefulness of the model in the light of the problems highlighted Parson s book provides a lucid presentation and a cogent critique of Rational Choice Theory in economics and politics Professor Steve Pressman Department of Economics and Finance Monmouth University USA **Journal of Institutional and Theoretical Economics** ,1993 **The European Union's Common Agricultural Policy Reforms** Marko Lovec, 2016-08-02 This book engages in the controversies of the European Union s Common Agricultural Policy CAP reforms demonstrating how these are reiterated by mainstream theoretical approaches in the field The reforms that the European Union s CAP underwent during the last three decades were intended to make it less trade distorting more taxpayer friendly and more able to meet the new challenges of environmental concerns and rural development territorial cohesion The outcome of the reforms has however

contradicted these objectives with the controversies being reiterated by the mainstream theoretical approaches in the field European Union s Common Agricultural Policy Reforms argues that these controversies are due to reductionist rationalist and idealist assumptions with regard to the object of inquiry applied by mainstream approaches It proposes an alternative critical approach that takes into account the role of real material factors Critical realism is not just an alternative explanation of CAP reforms but an alternative theory of how explanations can be made which enables readers to reflect upon and endorse the results of existing lines of research in proceeding towards deeper level theory **The Rationality Of Political Protest**

Karl-dieter Opp,2019-09-16 The authors systematically apply rational choice theory in order to suggest hypotheses about political protest They test these hypotheses by means of surveys and compare their rational choice hypotheses with competing hypotheses Journal of Theoretical Politics ,2005 **Preferences, Institutions, and Rational Choice** Keith

M. Dowding,Desmond S. King,1995 Rational choice theory has gained considerable influence in politics and sociology over the past thirty years The use of rational choice methods has proliferated in all areas of social inquiry From the early days as formal proofs and unrealistic assumptions rational choice is increasingly being used to model authentic situations and institutions This collection of essays from leading British writers in the rational choice paradigm concentrates upon the two key aspects of rational choice the role of preferences and institutions The essays encompass both theoretical inquiries and empirical analyses This volume is a vital addition to growing literature on the problems and the application of rational choice in social inquiry **The Future of Governing** B. Guy Peters,2001 Examines and compares various forms of government in

industrialized countries **Papers of the 10th Biennial Conference of the Japanese Studies Association of Australia: Identity politics and critiques in contemporary Japan** Japanese Studies Association of Australia. Conference,2000

Neopluralism Andrew S. McFarland,2004 Many of the basic issues of political science have been addressed by pluralist theory which focuses on the competing interests of a democratic polity their organization and their influence on policy Andrew McFarland shows that this approach still provides a promising foundation for understanding the American political process **Analyzing Politics** Ellen Grigsby,1999 ANALYZING POLITICS is a comprehensive examination of the field of political science Taking a comparative approach it examines a variety of subfields of political science including methods political theory comparative politics international relations and U S politics Exhaustive in its coverage of the material ANALYZING POLITICS employs an extensive collection of boxes tables charts graphs photos and cartoons to hold the reader s attention
