Rational Choice Marxism Pr:

Rational Choice Marxism T. Carver, P. Thomas, 2016-07-27 To begin with rational choice Marxism promised to construct historical explanations and social theories with clarity and rigour Subsequently it took a political turn in addressing issues of class and production and the prospects for electoral socialism This anthology commences with the founding classics Erik Olin Wright's What is Analytical Marxism and Alan Carling's spirited challenge to the Marxist establishment which are answered with critical responses detailed by Ellen Meiksins Wood and Michael Burawoy in previously uncollected debates Also included are further debates charting the historical progression of rational choice Marxism The editors demonstrate that the clarity and rigour originally promised by the rational choice Marxists was never in fact achieved but that rational choice Marxism has considerably enhanced the theoretical treatment of class and production in a world of commodification and difference

Karl Marx and Contemporary Philosophy A. Chitty, M. McIvor, 2009-05-29 This collection brings together the latest work of some of the world's leading Marxist philosophers and new young researchers Based upon work presented at meetings of the Marx and Philosophy Society it offers a unique snapshot of the best current scholarship on the philosophical aspects and implications of Marx's thought

The Postmodern Marx Terrell Carver, 1998 What do we imagine when we imagine Europe and the European Union To what extent is our understanding of the EU of its development its policies and its working processes shaped by unacknowledged assumptions about what Europe really is The book constructs a case for reimagining Europe not as an entity in Brussels or a series of fixed relations but as a simultaneously real and imagined space of action which exists to the extent that Europeans and others act in and on it This Europe is constantly being made in particular spaces through specific actor struggles whose interconnections are often ill defined We ask how do those concerned with building Europe with extending and elaborating the EU think of where they are and what they are doing The book captures Europeans in the process of making Europe of performing interpreting modelling referencing consulting measuring and de politicising Europe

Routledge Handbook of Marxian Economics David M. Brennan, David Kristjanson-Gural, Catherine P. Mulder, Erik K. Olsen, 2017-03-16 Most developed economies are characterized by high levels of inequality and an inability to provide stability or opportunity for many of their citizens Mainstream economics has proven to be of little assistance in addressing these systemic failures and this has led both scholars and students to seek alternatives One such alternative is provided by Marxian economics In recent decades the field has seen tremendous theoretical development and Marxian perspectives have begun to appear in public discourse in unprecedented ways This handbook contains thirty seven original essays from a wide range of leading international scholars recognized for their expertise in different areas of Marxian economics Its scope is broad ranging from contributions on familiar Marxist concepts such as value theory the labor process accumulation crisis and socialism to others not always associated with the Marxian canon like feminism ecology international migration and epistemology This breadth of coverage reflects the

development of Marxian economic and social theory and encompasses both the history and the frontiers of current scholarship This handbook provides an extensive statement of the current shape and future direction of Marxian economics The Routledge Handbook of Marxian Economics is an invaluable resource for students researchers and policy makers seeking guidance in this field It is designed to serve both as a reference work and as a supplementary text for classroom use with applications for courses in economics sociology political science management anthropology development studies philosophy and history Modern Social Theory Ian Craib, 2015-08-12 The revised edition of this widely acclaimed textbook provides a clear accessible and comprehensive introduction to modern social theory As with the first edition the book is based around the themes of structure and action After the introductory chapters which examine the nature of theory and its role in the social world the book then turns to theories of action and the inability of those theories to comprehend social structures in a coherent way Part 1 covers Parson s structural functionalism and the development of conflict theory and neofunctionalism rational choice theory symbolic interactionism ethnomethodology and structuration theory Part 2 looks at structuralism structuralist Marxism and the development of post structuralist and postmodernist theory Part 3 examines Critical Theory and the work of Jurgen Habermas In conclusion Ian Craib discusses current trends in theory and what might be expected in the future This second edition has been revised throughout There are new chapters on rational choice theory and structuration theory and existing chapters have been extended to deal with the development of neofunctionalism postmodernism and the recent works of Habermas as well as recent developments in other approaches Throughout the aim of the book is to demystify a difficult subject area emphasising the practical and everyday nature of theoretical thinking in the context of making sense of a rapidly changing world The late Ian Craib was Lecturer in Sociology at the University of Essex

Contractarian Liberal Ethics and the Theory of Rational Choice Jung Soon Park, 1992 This book investigates the relationship between morality and rationality in the context of historical and present day contractarian ethics From Rawls to Gauthier contractarians have attempted to construct their methodological foundations on the theory of rational choice Through a careful study of the nature and limits of the theory of rational choice Jung Soon Park argues that the theory cannot provide the reliable foundations for contractarian liberal ethics Consequently the author takes seriously the question about the future of contractarian liberal ethics Is it the end or can there be a transformation International Encyclopedia of Human Geography , 2019-11-29 International Encyclopedia of Human Geography Second Edition Fourteen Volume Set embraces diversity by design and captures the ways in which humans share places and view differences based on gender race nationality location and other factors in other words the things that make people and places different Questions of for example politics economics race relations and migration are introduced and discussed through a geographical lens This updated edition will assist readers in their research by providing factual information historical perspectives theoretical approaches reviews of literature and provocative topical discussions that will stimulate creative thinking Presents the most

up to date and comprehensive coverage on the topic of human geography Contains extensive scope and depth of coverage Emphasizes how geographers interact with understand and contribute to problem solving in the contemporary world Places an emphasis on how geography is relevant in a social and interdisciplinary context **Analytical Marxism** Thomas F. Mayer,1994-06-08 Analytical Marxism blends the tenets of Marxist theory with many of the more traditional methods of social science In this brief introduction to the major ideas and scholars in the Analytical Marxist school Thomas F Mayer assesses the achievements strengths and criticisms of their work Focusing on the work of Elster Roemer Wright and others Mayer examines their writing on class the state exploitation and revolution Sections addressing communism and socialism define these terms in historical and current contexts enabling the author to establish the patterns from which political predictions may be drawn The book also explores the challenge to Marxist thought brought about by contemporary developments in Eastern Europe and suggests how the future of Marxism is shaped by these events Designed to help undergraduates understand the complex literature on the topic this volume is written in an accessible style and includes a glossary and annotated reading list The language is exceptionally clear and free of mathematical equations Thomas F Mayer demonstrates in fact how needless equations so often are Thomas F Mayer s Analytical Marxism is a theoretical statement in its own right As such it is far more compelling than the edited volume with the same title that came out in 1986 What makes Mayer s book superior is that it has abandoned or muted many of the philosophically objectionable positions associated with its predecessor Contemporary Sociology Thomas F Mayer s book admirably demonstrates the robust and provocative results wrought by Cohen ELster Przeworski Roemer and Wright with their chosen tools The liveliness and intensity of the debates provoked by these theorists assertions suggests that the Marxian analytical tradition has a robust future Science and Society

Social Division Alan Carling,1991 Social divisions are systematic social inequalities which are frequently regarded as unjust and are fateful in the lives of individuals **Marx for Our Times** Daniel Bensaïd,2002 Without denying the contradictory character of Marx s thought Daniel Bensaïd sets out to demonstrate that it was not a philosophy of the end of history an empirical sociology of classes or a positive science of economics positing an inexorable progress towards an ineluctable communism Instead Marx s critique of political economy encompassed three great critiques of the scientific and political canons of its age of historical reason sociological rationality and scientific positivism which make the thinker from the nineteenth century fully relevant to the twenty first century of global capitalism Indeed we find here a post postmodern Marx able to inhabit a contemporary world replete with contingency emergency and contradictory temporalities Published in France on the eve of the strikes of 1995 that signalled a profound revolt against la pensee unique Marx for Our Times is an invitation to rediscover our foremost contemporary Karl Marx Analytical Marxism Marcus Roberts,1996 A beautifully written exploration of identity and memory in a journey through Ireland Enriched by cross cultural comparisons with the history of the American West A BOOK OF MIGRATIONS carves a new route through Ireland s history literature and

landscape Rich with historical reflections the book combines the virtues of the finest travel writing with a critical acuity

Reinventing Marxism Howard J. Sherman, 1995-12-02 A re evaluation of Marxism as an alternative to pro capitalist perspectives **Mit Marx ins 21. Jahrhundert** Olaf Gerlach, 2003 Recent Interpretations of Karl Marx's Social Theory Richard Ruey-Chyi Hwang, Ruiqi Huang, 2006 This book seeks on the one hand to examine Habermas work on the reconstruction of historical materialism and Cohen s and Elster s analyses of the topic on the other to compare contrast and criticize their work They respond to the political and theoretical crises of contemporary Marxism Habermas response is to overcome economism and to stress normative structure and communication Cohen s reaction is to go back to the orthodoxy of Marxism with analytical philosophy and Elster reacts by re analyzing Marxian basic concepts with the analytical tools of the modern social sciences In short they all acknowledge the continual relevance of Marxism but also state that Marxism in general or historical materialism in particular needs revision in various ways *Comparative Political Dynamics* Dankwart A. Rustow, Kenneth Paul Erickson, 1991 Recapturing Marxism Rhonda F. Levine, Jerry Lembcke, 1987-09-09 Marxism Neo Marxism and U S sociology by Rhonda F Levine and Jerry Lembcke Crisis and vitalization by Albert Szymanski New classes and old theories by Peter Meiksins Class and class capacities by Jerry Lembcke Bringing classes back in by Rhonda F Levine The limits of the world system perspective by Alex Dupuy and Barry Truchil Race ethnicity and class by James A Geschwender Recent ideological tendencies in urban and regional research by Richard Peet Behind the veil of neutrality by Peter Seybold Feminism by Albert Szymanski Thinking about social class by Scott G McNall The Cumulative Book Index , 1996 A world list of books in the English language **International Journal of Development Planning Literature** , 1990 *Marx's Theory of History* Paul Wetherly, 1992 In recent years there has been a renewed interest in Marx s theory and this text is intended as an accessible guide and contribution to this debate It presents research findings together with summaries of alternative approaches to the interpretation of historical materialism *Asien, Afrika, Lateinamerika* , 1992
