Rankings – Soziologische Fallstudien Leopold Ringel, Tobias Werron, 2019-09-03 Rankings sind in der modernen Gesellschaft allgegenwärtig. Athleten, Hotels, Nationalstaaten, Unternehmen, Universitäten, Kunsttreibende und viele andere sehen sich Leistungsvergleichen in der Form von regelmäßig veröffentlichten Ranglisten ausgesetzt. Die Beiträge des Sammelbandes nähern sich dem Phänomen aus einer genuin soziologischen Perspektive und untersuchen u.a. die Produktion, Verwendungsweisen, Institutionalisierung und Effekte von Rankings in unterschiedlichen gesellschaftlichen Feldern.

Administration of Intercollegiate Athletics Robert Zullo, Erianne Weight, 2024-02-27 Some of the most experienced professionals in athletics administration share their expertise in what it takes to navigate an increasingly complex sports landscape and successfully manage a collegiate athletics department.

Performance Richard L. Alfred, Nathan Harris, Kathryn Thirolf, James Webb, 2012-06-18 Understanding performance requires asking fundamental questions about the nature and purpose of an organization. What is its business? Whom does it serve? What do stakeholders want and expect? What do they get? How does the organization conceive of and measure results? How do stakeholders feel about results? The organization is generating. Answers to these questions require a framework for analysis comprised of three essential ingredients: stakeholders, results, and improvement strategies. Organizational performance is given segmental treatment in literature and research. Numerous articles and books have been written on related topics such as outcomes assessment, organizational effectiveness, and cost-benefit analysis, but each approaches the subject from a singular perspective. In this book, organizational performance is viewed through multiple lenses so that its different dimensions can be understood and appreciated. The view is broad and far-reaching in the beginning and specific toward the end, where actions organizations can take to improve performance are described. Recognizing that performance is context-specific, colleges and universities are used in this book as the medium for examining performance. This book is written for current and future leaders in profit and non-profit organizations who find scholarly books unimaginative, protracted, and detached from practice. Senior executives, while familiar with many of the basic concepts, will find exceptions to current conceptions of organizational performance and practices used to measure and report performance. *Performance: The Dynamic of Results in Postsecondary Organizations* will be particularly useful to college and university administrators, corporate executives and managers, managers in non-profit, policy-making and advocacy organizations, graduate program faculty and students, and management consulting organizations.
