Why a Mac?* Leonard Lowe, 2017-08-29 A lot of talk these days is about the Macintosh and Apple With their mobile devices like iPhone and iPad Apple became the most valuable brand in the world And not without a cause they are just brilliant But is this also true for their much older product the Macintosh Computer around

since 1984 Compared to the mainstream Apple used to be a different world and many elaborate computer users think about and doubt whether to switch to the Mac or not Wasn't the Mac just for the creative people for the people who weren't really power users Is a Mac even a real computer Or is it just some nice point and click thing that lacks depth and complexity This is where this book comes in it tells you in a different way than all the others what the Mac is and what it will do for you It tells you from a historical perspective shows its development and what each step brought for the user This book will tell you exactly what advantages a Mac has compared to the other competitors like Windows or Linux And it will tell you which of the many myths and rumors around it are true and which aren't *Why Mac OS?* Leonard Lowe, 2017-07-31 Mac Institute
