Raising Readers Helping Your Child To Literacy:

Raising Readers Steven Bialostok,1992 This bestselling book helps teachers answer all the questions that parents ask about their children's reading. It helps make parents partners not adversaries in the learning process by explaining how current ways to teach reading correspond to the natural ways in which children acquire language. Includes sections on how to choose good books for children commonly asked questions and more. Raising Readers at Home Sheila E.

Sapp,2023-07-31 This book consists of an easy to follow plan designed to guide and assist parents in nurturing and developing pre reading pre literacy skills needed to learn how to read. Parents caregivers begin their journey by examining and exploring why some children have difficulty learning to read. It is also noted the role they can play in preparing their children for the learning to read process at home. They are guided through the development of pre reading milestones and behavior characteristics of young children. Additionally parents caregivers complete a self assessment to determine their thoughts about learning which is important in setting up a creative and vibrant learning environment for their home. Before addressing the four components of the reading process parents caregivers are guided in setting the stage for learning to reading their home by establishing a print rich environment. Guiding the Reading Process David Booth,1998 Case studies mini lessons outlines checklists book lists and computer programs to help reading success in the classroom.
