**Ralph Eugene Meatyard** Ralph Eugene Meatyard, 1974 Ralph Eugene Meatyard Ralph Eugene Meatyard, Barbara Tannenbaum, Akron Art Museum, 1991 Ralph Eugene Meatyard Ralph Eugene Meatyard, Guy Davenport, International Center of Photography, 2004 The photographs of Ralph Eugene Meatyard defy convention they have been called visionary surrealistic and meditative Whatever the label these evocative images of friends and family and the natural world around his home illustrate a delicate psychology of human interaction Meatyard was trained as an optician a profession that he maintained all his life in Lexington Kentucky he bought a camera in 1950 for the sole purpose of photographing his first born son But shortly thereafter he joined the Lexington Camera Club and developed a friendship with his photography teacher Van Deren Coke as well as a circle of local writers and photographers including Guy Davenport Thomas Merton Wendell Berry Jonathan Williams and Minor White Family and friends freely participated in Meatyard's staged and mysterious images which often involve masks and abandoned spaces and obliquely reference social political and cultural issues A key subject in Meatyard's work is the natural environment which is featured in his Light on Water series in which long exposures seem to create calligraphic texts and his No Focus series in which he deliberately photographed stems and twigs out of focus In one of his last series titled Motion Sound the pictures were made by moving the camera gently creating multiple exposures of the woodland scenes that suggest abstract sound patterns The book accompanies an exhibition organized by ICP Assistant Curator Cynthia Young with acclaimed writer and Meatyard friend Guy Davenport who also wrote the text Also included are the exhibition history chronology and bibliography **Ralph Eugene Meatyard** Ralph Eugene Meatyard, 1996 Tekster om og fotografier af den amerikanske kunsthøfotograf Ralph Eugene Meatyard 1925-1972 **Reframing Photography** Rebekah Modrak, Bill Anthes, 2011 In an accessible yet complex way Rebekah Modrak and Bill Anthes explore photographic theory history and technique to bring photographic education up to date with contemporary photographic practice **Ralph Eugene Meatyard** James Rhem, Ralph Eugene Meatyard, 2002 Edited by James Rhem *The Concise Focal Encyclopedia of Photography* Michael Peres, 2014-06-20 Defining photography is impossible Revealing it is another matter and that's what *The Concise Focal Encyclopedia of Photography* does with each turn of the page History The technical origins and evolution of photography are half of the story The other half consists of the ways that cultural forces have transformed photography into a constellation of practices more diverse than any other mode of representation Photographers can tell a more in depth story through a photo like Dorothea Lange's Migrant Mother than a journalist ever could with the written word alone Major themes and practitioners Over 25 entries many with supporting illustrations examine the figures trends and ideas that have contributed most heavily to the history and current state of photography Contemporary issues The issues influencing photography today are more complex than at any other time in its history Questions of ethics desire perception digitization and commercialization all vie for attention Hear what the experts have to say about crucial issues such as whether or not the

images we take today will last the test of time and if so how When material is covered this skillfully concise is no compromise The Concise Focal Encyclopedia of Photography is packed with useful information compelling ideas and best of all pure pleasure Kentucky Renaissance Brian Sholis, John Jeremiah Sullivan, 2016-01-01 A groundbreaking study of the extraordinary photographers writers printmakers and publishers who formed a flourishing modernist community in Kentucky Dozens of American cities witnessed the founding of camera clubs in the first half of the 20th century though few boasted as many accomplished artists as the one based in Lexington Kentucky This pioneering book provides the most absorbing account to date of the Lexington Camera Club an under studied group of artists whose ranks included Ralph Eugene Meatyard Van Deren Coke Robert C May James Baker Hall and Cranston Ritchie These and other members of the Lexington Camera Club explored the craft and expressive potential of photography They captured Kentucky's dramatic natural landscape and experimented widely with different techniques including creating double and multiple exposures or shooting deliberately out of focus images In addition to compiling images by these photographers this book examines their relationships with writers publishers and printmakers based in Kentucky at the time such as Wendell Berry Guy Davenport Jonathan Greene and Thomas Merton Moreover the publication seeks to highlight the unique contributions that the Lexington Camera Club made to 20th century photography thus broadening a narrative of modern art that has long focused on New York and Chicago Featuring a wealth of new scholarship this fascinating catalogue asserts the importance and artistic achievement of these often overlooked photographers and their circle **American Photo**, 1991-09 **The Focal Encyclopedia of Photography** Michael R.
