Raphael Basic Art:

The Cognitive Basis of Aesthetics Elena Fell, Ioanna Kopsiafti, 2016-04-14 This book seeks to fill a void in contemporary aesthetics scholarship by considering the cognitive features that make the aesthetic and artistic worthy of philosophical study. Aesthetic cognition has been largely abandoned by analytical philosophy which instead tends to focus its attention on the non-exhibited properties of artwork or issues concerning semantic and syntactic structure. The Cognitive Basis of Aesthetics innovatively seeks to correct the marginalization of aesthetics in analytical philosophy by reinterpreting aesthetic cognition through an integration of Ernst Cassirer's philosophy of symbolic forms with Paul Crowther's theory of imagination and philosophy of art. This integration has three important outcomes: 1. it explains why the aesthetic and artistic constitute a unique form of knowledge; 2. it shows the role this plays in the formation of aesthetics as a discipline; and 3. it describes why aesthetic cognition is so deeply engaging. This book's unique theoretical approach engages with important works of visual, conceptual and digital art as well as literature, music and theatre. *The Speaker*, 1899 *Attending to Early Modern Women* Susan Dwyer Amussen, Adele F. Seeff, 1998 This volume continues and amplifies a series of conversations initiated in 1990 at the conference *Attending to Women in Early Modern England* sponsored by the University of Maryland's Center for Renaissance and Baroque Studies on the College Park campus. The volume celebrates the work of the almost 400 scholars who contributed as plenary speakers, workshop leaders and participants to *Attending to Early Modern Women* held in April 1994 once again at the University of Maryland at College Park. **"Titian, Colonna and the Renaissance Science of Procreation"** Anthony Colantuono, 2017-07-05 Titian Colonna and the Renaissance Science of Procreation demonstrates that two major monuments of Italian Renaissance culture, Bellini's and Titian's famous series of mytho-poetical paintings for the camerino of Duke Alfonso d'Este of Ferrara and Francesco Colonna's *Hypnerotomachia Poliphili* were conceived as mnemonic or pedagogical devices aimed at educating the reader/holder in the medical science of reproductive physiology and the maintenance of sexual health. It is further argued that the learned courtier Mario Equicola who conceived the pictorial program of Duke Alfonso's camerino had read Colonna's text and was extensively inspired by its prior literary argument. The study is organized in two parts intimately interrelated. The first part is a study of Alfonso d'Este's camerino with a general introduction, individual chapters on each of Bellini's and Titian's four pictorial bacchanals and a conclusion proposing a new and more accurate reconstruction of the layout of the room, also including a completely new way of interpreting the ensemble. The second part of the study concerns Colonna's *Hypnerotomachia Poliphili* again beginning with its own introductory essay and advancing a completely new interpretation of the text. The brief conclusion brings the insights of the two sections together, clarifying the historical relationship between the pictorial and literary works and explaining their larger cultural significance. Emphasizing Equicola's use of the *Hypnerotomachia* as a model for pictorial invention, the author reveals how Titian's remarkably sensuous paintings and Colonna's erotically charged romance are

related by their common reference to the neo Aristotelian medical theory of the libidinal seasons and by corollary themes of marriage and sexual consummation This peculiar intersection of cultural themes came to prominence in the context of a courtly world in which medical science was increasingly brought to bear on the problem of dy
