Raphael And France:

Raphael and France Martin Rosenberg, 1995 Focusing on French art and theory from the classical to the Romantic era Raphael and France is part of the ongoing revision of views of that period which has been taking place for the last twenty years The book demonstrates that the shifts from classical to Rococo to neo classical aesthetics were not as abrupt or as all encompassing as has been assumed By tracing the continuity and transformation of the classical ideal with Raphael's art and image as central paradigms Rosenberg achieves a broader more accurate and comprehensive view of French artistic developments during this period
