Rapprochement Ruth F. Lax, Sheldon Bach, J. Alexis Burland, 1980 **Occupational Therapy With Borderline Patients** Diane Gibson, 2014-06-11 This volume discusses and reviews the current knowledge in the concept and management of activity groups designed for borderline patients who are defined as those with self destructive and maladaptive interpersonal relations Primary Love Randall S. Klein, 2010-06-05 In Primary Love Dr Klein describes love and intimacy as they evolve in the context of family relations from birth to maturity in adulthood Once the original attachment and the loving intimate bond between a mother and her infant child are established primary love is founded and secured Every relationship of love and intimacy formed thereafter has as its foundation nature and design the original pristine loving relationship encountered in the very earliest period of life When two adults form a mature intimate relationship it is the unconscious wish of both partners to recapture and claim the bliss and the ecstasy of primary love nestled securely in a mother's loving and ministering arms Dr Klein's view of love and intimacy is that which is found in the ideal marriage and family fully acknowledging that the pure and perfect marriage and family does not exist Yet the perfectly described nature of marriage and the family serves as an ideal toward which to strive for the ideal provides the ultimate of pleasure and reward in the human encounter of love **Jahrbuch der Psychoanalyse** Käthe Dräger, 2001 **Bulletin of the Menninger Clinic** Menninger Clinic, 1985 *Pediatric Dentistry: Principles and Practice E-book* M. aktive Ausdruck von Aggression und Sexualität bei Frauen wurden in der abendländischen Geschichte durch vielfältige unbewusste Fantasien tabuisiert. Das Weibliche als dunkler Kontinent, als das für das Bewusstsein unzugängliche Unheimliche, war von Anfang an ein grundlegendes Thema innerhalb der Theorie der Psychoanalyse. Dieses mystifizierte Bild der Weiblichkeit versucht die Autorin anhand einer exemplarischen Figur der griechischen Tragödie, die diesem stereotypen Bild der Frau nicht gerecht wird, zu dekonstruieren. Die Medea des Euripides verkörpert eine weibliche Figur, die die Männerfantasie von der Frau als Inkarnation des Bösen noch übersteigt, indem sie auch als eine selbständige Frau und als eine potente Mutter dargestellt wird. Die vorliegende sozial psychoanalytische Interpretation der Medea des Euripides umfasst einen interdisziplinären Raum, der von einer sozial kritischen Kulturanalyse der Weiblichkeitsentwürfe in der Antike über eine Erörterung der komplexen Beziehungen zwischen griechischer Mythologie und Tragödie bis zu einer kritischen Auseinandersetzung mit den modernen Beiträgen eines psychoanalytisch orientierten theoretischen Verständnisses von Weiblichkeit reicht. In der Medea des Euripides treffen wir auf ein weibliches Subjekt, bei dem nicht nur die weibliche Sexualität dargestellt wird, sondern wir finden in ihr auch die inneren Widersprüche und die heftige Ambivalenz vereint, welche die bewusste Unterdrückung von Aggression bei Frauen noch heute mit sich bringt. In Medea kommen die weibliche Aggression, die leidenschaftliche Liebe und die schöpferischen Komponenten der Mutterschaft in ihrer Selbstbestimmung und Handlungsfähigkeit zum Ausdruck. Gleichzeitig ist Medea jedoch eine tragische Figur. Sie muss sich in eine mordende Frau verwandeln, um ihre Subjekthaftigkeit und ihr Selbstwertgefühl zu behalten. Als Paradigma des tragisch weiblichen Subjekts gilt Medea als Verkörperung.

Marriage & the Family Marcia E. Lasswell, Thomas E. Lasswell, 1991. One challenge for professors is trying to give students the practical how-to information along with the sociological research theory and data. The Lasswells speak directly to students in this personal and pragmatic overview of marriage and the family. They integrate both sociological and psychological perspectives to balance their presentation of the dynamics of intimate relationships. In addition to presenting key theories, research and data, the authors include numerous practical discussions about how this material can be useful in everyday life.

Identity--psychosocial Perspectives Krysia M. Yardley-Matwiejczuk, Krysia Yardley, Terry Honess, 1987 This study of self is a growing concern within psychology and related disciplines particularly in social and clinical psychology psychiatry and personality studies *Handbook of Learning Disabilities* Jack C. Westman, 1990 Westman reviews the history of professional approaches and reframes the concept of learning disabilities developing a general theory of living systems as an analytic framework He considers both the external influences on children from society and the internal influences of the central nervous system

Transnational America Everett Helmut Akam, 2002-08-20 In *Transnational America* Everett Akam brilliantly addresses one of the most fundamental issues of our time how Americans might achieve a sense of racial and ethnic identity while simultaneously retaining the common ground of shared traditions and citizenship Akam's study transcends the current debates over multiculturalism and cultural pluralism by retrieving the tradition of cultural pluralist thought neglected since the first half of the twentieth century He argues that thinkers such as Randolph Bourne John Collier Horace Kallen and Alain Locke sought to reconcile diversity and community by challenging the cults of individualism universal reason and assimilation typical of their age Akam goes on to demonstrate how cultural pluralist thought was eclipsed during the second half of the twentieth century by an intellectual mainstream that both discounted pluralists' emphasis on culture and heralded interest group pluralism as a model for racial and ethnic relations *Transnational America* is an engaging look at the difficulty of achieving the delicate synthesis between identity and community that will be of interest to sociologists political theorists and historians alike
