Rat On Fire:

Taoist Astrology Susan Levitt, 1997-06-01 This guide brings Chinese astrology back to its ancient roots providing all the information you need for understanding one of the world's oldest systems of divination. The ancient Chinese people developed a sophisticated science of astrology that continues to have profound influence in China today. Rooted in the fundamentals of Taoism, it evolved into a system vastly different from Western astrology. Rather than determining personality by the time of the year in which you are born, in Taoist astrology it is the year itself that determines your character. The years form a twelve-year cycle of signs, each named after an animal. Additionally, your personality depends on which of the five traditional Taoist elements you are born under: water, wood, fire, earth, or metal. This makes for a cycle of sixty unique signs. Taoist Astrology includes information for each sign's personality, compatibility, child-parent relations, and rising and falling fortunes during the twelve-year cycle. Discussions of yin and yang, Confucianism, and Buddhism, Taoist alchemy, and the connection between Taoist astrology and Western astrology give you all the background you need for understanding one of the oldest systems of divination known to humanity. Taoist Astrology differs from other books on the subject by grounding its concepts in the ancient traditions from which it originated. **The Ten Thousand Year Calendar (Pocket Edition)** Joey Yap, 2014-10-01

Uncovering the Codes Kim Yol-kyu, 2005 Uncovering the Codes: Fifteen Keywords in Korean Culture is a cultural guide to what is unique about Koreans and their way of life. The questions raised in this book range from the mundane to the spiritual, each touching on the essence of Korea's 5,000-year-old culture. Why is a Korean spoon flat and round, not oval? Why do Korean women pray to a bowl of water? Why do Koreans eat dog meat? Kim Yol-kyu, a renowned scholar of Korean folklore and literature, carefully digs up the answers embedded deep in centuries-old customs. Quoting from a wide scope of references from ancient mythology to Merleau-Ponty and Levi-Strauss, Kim unearths the fascinating connections between the past and the present. Kim is Distinguished Professor of Korean Studies at Keimyung University in Daegu, Korea, where he also directs the Academia Koreana. Xuan Kong Da Gua 64 Gua
