Ring Doorbell In The Us:

Official Gazette of the United States Patent and Trademark Office, 1999 **We, the Data** Wendy H. Wong, 2023-10-10 A rallying call for extending human rights beyond our physical selves and why we need to reboot rights in our data intensive world Winner of the 2024 Balsillie Prize for Public Policy Shortlisted 2024 Lionel Gelber Prize Our data intensive world is here to stay but does that come at the cost of our humanity in terms of autonomy community dignity and equality In *We the Data* Wendy H Wong argues that we cannot allow that to happen Exploring the pervasiveness of data collection and tracking Wong reminds us that we are all stakeholders in this digital world who are currently being left out of the most pressing conversations around technology ethics and policy This book clarifies the nature of datafication and calls for an extension of human rights to recognize how data complicate what it means to safeguard and encourage human potential As we go about our lives we are co creating data through what we do We must embrace that these data are a part of who we are Wong explains even as current policies do not yet reflect the extent to which human experiences have changed This means we are more than mere subjects or sources of data by products that can be harvested and used by technology companies and governments By exploring data rights facial recognition technology our posthumous rights and our need for a right to data literacy Wong has crafted a compelling case for engaging as stakeholders to hold data collectors accountable Just as the Universal Declaration of Human Rights laid the global groundwork for human rights *We the Data* gives us a foundation upon which we claim human rights in the age of data *A Commercial Law of Privacy and Security for the Internet of Things* Stacy-Ann Elvy, 2021-07-29 In the Internet of Things IoT era online activities are no longer limited to desktop or laptop computers smartphones and tablets Instead these activities now include ordinary tasks such as using an internet connected refrigerator or washing machine At the same time the IoT provides unlimited opportunities for household objects to serve as surveillance devices that continually monitor collect and process vast quantities of our data In this work Stacy Ann Elvy critically examines the consumer ramifications of the IoT through the lens of commercial law and privacy and security law The book provides concrete legal solutions to remedy inadequacies in the law that will help usher in a more robust commercial law of privacy and security that protects consumer interests *Technocreep and the Politics of Things Not Seen* Neda Atanasoski, Nassim Parvin, 2025-04-11 New and emerging technologies especially ones that infiltrate intimate spaces relations homes and bodies are often referred to as creepy in media and political discourses In *Technocreep and the Politics of Things Not Seen* Neda Atanasoski and Nassim Parvin introduce a feminist theory of creep that they substantiate through critical engagement with smart homes smart dust smart desires and smart forests toward dreams of feminist futures Contributing authors further illuminate what is otherwise obscured assumed or dismissed in characterizations of technology as creepy or creeping Considering diverse technologies such as border surveillance and China's credit system to sexcams and home assistants the volume's essays and artworks demonstrate that the potentials and pitfalls of artificial intelligence

and digital and robotic technologies cannot be assessed through binaries of seeing being seen privacy surveillance or harmful useful Together their multifaceted and multimodal approach transcends such binaries accounting for technological relations that exceed sight to include touch presence trust and diverse modes of collectivity As such this volume develops creep as a feminist analytic and creative mode on par with technology s complex entanglement with intimate local and global politics Contributors Neda Atanasoski Katherine Bennett Iv n Chaar L pez Sushmita Chatterjee Hayri Dortdivanlioglu Sanaz Haghani Jacob Hagelberg Jennifer Hamilton Antonia Hernandez Marjan Khatibi Tamara Kneese Erin McElroy Vernelle A A Noel Jessica Olivares Nassim Parvin Beth Semel Renee Shelby Tanja Wiehn
