In The Post-Urban World Tigran Haas, Hans Westlund, 2017-10-16 Winner of the Regional Studies Association's Best Book Award 2018 In the last few decades many global cities and towns have experienced unprecedented economic social and spatial structural change Today we find ourselves at the juncture between entering a post urban and a post political world both presenting new challenges to our metropolitan regions municipalities and cities Many megacities declining regions and towns are experiencing an increase in the number of complex problems regarding internal relationships governance and external connections In particular a growing disparity exists between citizens that are socially excluded within declining physical and economic realms and those situated in thriving geographic areas This book conveys how forces of structural change shape the urban landscape In The Post Urban World is divided into three main sections Spatial Transformations and the New Geography of Cities and Regions Urbanization Knowledge Economies and Social Structuration and New Cultures in a Post Political and Post Resilient World One important subject covered in this book in addition to the spatial and economic forces that shape our regions cities and neighbourhoods is the social cultural ecological and psychological aspects which are also critically involved Additionally the urban transformation occurring throughout cities is thoroughly discussed Written by today's leading experts in urban studies this book discusses subjects from different theoretical standpoints as well as various methodological approaches and perspectives this is alongside the challenges and new solutions for cities and regions in an interconnected world of global economies This book is aimed at both academic researchers interested in regional development economic geography and urban studies as well as practitioners and policy makers in urban development

China in the Local and Global Economy Steven Brakman, Charles van Marrewijk, Peter J. Morgan, Nimesh Salike, 2018-11-21 The history of China dates back thousands of years with periods of decline followed by periods of growth and innovation This book puts the last 50 years China's most recent period of growth into perspective It explores the changing national and international connections within China and between China and other parts of the world and their importance for understanding the past current and future developments of the Chinese economy The book brings together leading international contributors from China Japan and Europe to consider the historical developments of these connections the importance of natural and man made connections for the Chinese economy the role of institutions and policies for understanding the connections and their sustainability This book will be of interest to scholars and researchers focusing on China economics geography or international trade

Smaller Cities in a World of Competitiveness Peter Karl Kresl, Daniele Ietri, 2016-04-28 Much recent research in Urban Studies has concentrated on the notion of the global city but discussion has also covered a larger set of mega cities with populations in excess of 10 million This analysis has begged the question of the optimal size for a city is larger always better Smaller Cities explores the advantages and disadvantages of different sized cities trying to determine their place in the global economy and hierarchy How can smaller cities gain or retain their

competitiveness in a world of large cities In a globalized world the nation has perhaps been diminished as an economic actor with fiscal shortcomings and political gridlock leaving cities more or less on their own in the task of enhancing their competitiveness and improving the economic lives of their residents This book argues that smaller cities of varying population can be important actors in competitiveness and aims to bring attention to an area often overlooked by researchers In short are Pittsburgh San Diego and Austin less competitive than London and Mumbai This volume will be of interest to students researchers and city professionals who work in urban economy and urban geography *Metropolitan Governance in Latin America* Alejandra Trejo Nieto, Jose L. Niño Amézquita, 2021-11-29 This book represents a powerful analysis of the challenges of metropolitan governance in all its messiness and complexity It examines Latin American metropolitan governance by focusing on the issue of public service provision and comparatively examining five of the largest and most complex urban agglomerations in the region Buenos Aires Bogota Lima Mexico City and Santiago The volume identifies and discusses the most pressing challenges associated with metropolitan coordination and the coverage quality and financial sustainability of service delivery It also reveals a number of spatial inequalities associated with inadequate provision which may perpetuate poverty and other inequalities *Metropolitan Governance in Latin America* will be valuable reading for advanced students researchers and policymakers tackling themes of urban planning spatial inequality public service provision and Latin American urban development U.S. News & World Report ,2004-03 Finance & Development, September 2004 International Monetary Fund. External Relations Dept.,2004-09-02 This paper highlights that for the IMF July 2004 marked the 60th anniversary of the conference in Bretton Woods New Hampshire when delegations from 44 allied countries drafted and agreed upon the IMF s charter The IMF s role and work have evolved in response but like any large organization its ability to change has been limited by its own rules and mandate and has been held back by inertia This year s anniversary offers an opportunity to reflect on how gaps between the reality and the ideal might be closed in the coming years The American Legion ,2006 *The Publishers Weekly* ,1875 **Maintaining Social Well-Being and Meaningful Work in a Highly Automated Job Market** Hai-Jew, Shalin,2020-04-03 In mainstream media there has been wide discussion on what the world will look like when the artificial intelligence AI and robotics incursions into traditional human work result in fewer jobs in manufacturing service industries and other domains Turning to automation is a practical endeavor for corporations because of the efficiencies and increased performance it fosters but these changes have a major impact on humanity The resulting lack of work has been linked to social ills and human failure to thrive *Maintaining Social Well Being and Meaningful Work in a Highly Automated Job Market* is a pivotal reference source that explores how the world will re shape as one with less demand for human labor and how to potentially balance how people engage as part workers and as consumers of others creations Additionally the book looks at how people will co create meaningful lives at micro meso and macro levels While highlighting topics such as mobile technology positive psychological capital and human capital this
