An Introduction to Public Relations and Communication Management 2e brings together an international and local focus with research from academic researchers, case studies, and firsthand accounts of public relations in practice. It includes tools for practice for students to help them put the theory into practice. It helps students to understand and appreciate the skills that will be required to work in Public Relations and gives students a stronger appreciation of the context and theory to develop practitioners who are better prepared and capable of adding value to their organisations. Public Relations and Communication Management Gary Malcolm Mersham, Petra Theunissen, Joseph G. M. Peart, 2009. Public Relations and Communication Management is specifically tailored to our unique cultural communication and information environments. This book provides locally relevant expertise and kiwi case studies from authors who live, teach, and work in public relations in New Zealand. Up to date with current industry practice, the book includes the latest developments in social media, reputation management, government relations, and communicating in cultural diversity. As a relatively small society, New Zealand can adapt and innovate quickly, and the public relations industry here has often been at the forefront of best practice, with practitioners moving rapidly to take up, apply, and test new concepts and technologies long before larger markets do. This text reflects this experience and is both culturally appropriate for New Zealand and also shows the future of public relations as it could be for innovative practitioners working anywhere in the world. Written in plain language and illustrated throughout with real-world examples, this text is comprehensive and explicit in its coverage of the skills and critical insights needed for public relations practice and also challenges the reader to consider the wider social context within which public relations operates. It is a text that is long overdue for students, practitioners, and everybody who is interested in Public Relations in Aotearoa New Zealand. Publisher's website. **The Future of Excellence in Public Relations and Communication Management** Elizabeth L. Toth, 2009-03-04. The Future of Excellence in Public Relations and Communication Management brings together a stellar collection of public relations scholars to address the question: What will happen to continue the seminal theory building in public relations bolstered by the work of James E. Grunig and Larissa A. Grunig and the groundbreaking 1992 IABC Excellence Study examining best practices in the field? This volume presents a challenge to future researchers, encouraging consideration of other theoretical research problems that will lead to improving the management practice of public relations. This collection advances scholarly and practitioner understanding of excellence in public relations and communication management and, as such, public relations and communications scholars, in addition to practitioners and graduate students studying these areas, will benefit immensely by reading the work in this volume. Zerfaß, A. A. van Ruler, Krishnamurthy Sriramesh, 2008-05-08 Introduction Sriramesh Van Ruler Zerfaß Krishnamurthy Sriramesh Betteke van Ruler Ansgar Zerfaß One could make a reasonable argument that public relations is an ancient practice going back millennia although it has been popularly perceived as a 20th century phenomenon Scholarship in public relations however is more recent in origin with a history of less than four decades During these formative years the body of knowledge has expanded significantly which is laudable However there is potential for growth and improvement in many areas of the public relations literature Over the decades among other things public relations scholarship has largely remained parochial to specific regions such as the United States the United Kingdom Latin America German speaking Europe etc as evidenced in the bibliographic references of many essays in this volume itself where authors predominantly cite work from their own regions This is often necessitated by linguistic differences with only English serving as the universal language that helps permeate knowledge through most regions Pedagogical and methodological factors also have played a role in the regionalization of the body of knowledge However we believe that knowledge flows most when it is shared across different kinds of barriers Globalization has made it essential for us to recognize this reality more than ever This volume tries to bridge the gap and presents theories and concepts from researchers around the world **Public Relations** Danny Moss, Barbara DeSanto, 2011-12-15 Taking a managerial perspective this book explores public relations and its role in the wider organizational world Contributors explore a variety of contexts in which the relevance of understanding these two interlinking domains is so paramount such as corporate branding and reputation government relations and community communications as well as drawing on expertise of legal considerations and ethical awareness The effective management of public relations is crucial within any organization but a wider managerial awareness and support of its role is equally critical Public Relations A Managerial Perspective offers an original and vital discussion of these challenges for second and third year undergraduate and postgraduate students of public relations corporate communications and public affairs

**Manager's Guide to Excellence in Public Relations and Communication Management** David M. Dozier, Larissa A. Grunig, James E. Grunig, 2013-10-18 This book reports findings of a three nation study of public relations and communication management sponsored by the International Association of Business Communicators IABC Research Foundation The Excellence Study provides communication managers and public relations practitioners with information critical to their own professional growth and supplies organizations with tools that help them communicate more effectively and build beneficial relations with key publics Communication excellence is a powerful idea of sweeping scope that applies to all organizations large or small that need to communicate effectively with publics on whom the organization's survival and growth depend The essential elements of excellent communication are the same for corporations not for profit organizations government agencies and professional trade associations And they are applicable on a global basis The study identifies three spheres of communication excellence These spheres consider the overall function and role of communication in organizations and define

the organization of this book They are the core or inner sphere of communication excellence the knowledge base of the communication department the shared expectations of top communicators and senior managers about the function and role of communication and the organization's culture the larger context that either nurtures or impedes communication excellence This text also examines communication excellence as demonstrated in specific programs developed for specific publics

**Public Relations - Organisation und Profession** Ulrike Röttger, 2010-12-13 Public Relations wird in der Arbeit theoretisch und empirisch als Organisationsfunktion analysiert Im Mittelpunkt stehen zum einen die Funktionen und Leistungen der PR in und für Organisationen und zum anderen Fragen der Professionalisierungsbedeutung und Funktion der PR als Auftragskommunikation Die Autorin betrachtet beide Themenkomplexe vor allem aus der Meso-Perspektive der Organisation aber auch aus der Mikro-Perspektive der Akteure Die Bezugnahme auf Überlegungen der Strukturierungstheorie verspricht dabei beide Perspektiven nicht isoliert sondern in ihrer wechselseitigen Verschränkung zu erfassen Mit der umfangreichen empirischen Studie liegen erstmals für Deutschland umfassende empirische Daten über das gesamte PR-Berufsfeld in einem Kommunikationsraum und nicht nur für einzelne Segmente vor

*Bausteine systemtheoretischer PR-Theorie* Joachim Preusse, 2016-03-21 Trotz zunehmender Bemühungen um die Theoriebildung zum Phänomen Public Relations wird nach wie vor eine verstärkte Verknüpfung von PR und Gesellschaftstheorie angemahnt Diese Studie verfolgt das Ziel den Anschluss der PR-Theorie an Gesellschaftstheorie zu verbreitern und zu vertiefen und so eine Lücke der PR-Theoriebildung zu verkleinern Dazu wird auf die Neuere Systemtheorie Luhmannscher Prägung zurückgegriffen Die forschungsleitende Frage lautet Welche Antworten ermöglicht die Neuere Systemtheorie auf zentrale Problemstellungen der PR-Theorie Ausgehend von sechs PR-theoretischen Leitfragen werden zentrale Begriffe und Theoriefiguren der Neueren Systemtheorie rekonstruiert und im Hinblick auf die Beantwortung der Leitfragen respezifiziert Im Ergebnis stehen sechs systemtheoretisch fundierte Bausteine einer organisationstypübergreifenden PR-Theorie die vorliegende systemtheoretische Ansicht ergänzen und erweitern Die Herleitung und Beschreibung desjenigen Grundproblems von Organisationen aufgrund dessen sie ein Subsystem PR ausbilden Gründe für PR eine Skizze des Beitrags des organisationalen Subsystems PR zum betrieblichen Entscheidungs- und Reproduktionsprozess von Organisationen Entscheidungen der PR eine Darstellung der Bezugsgrößen auf die sich PR-Entscheidungen in einer idealtypisierten Perspektive beziehen Bezugsrahmen für Steuerungsentscheidungen eine Ausarbeitung von Thematisierungen
