Public Sector Reform B. Nolan, 2001-04-10 In these times of dramatic social economic and political change governments around the world are questioning their roles and responsibilities in the public sector There is a trend away from traditional public sector model and that of market ideology but there does not yet exist a universally accepted alternative Brendan Nolan offers a comparative analysis of public administration in several OECD countries the UK USA Australia and Scandinavia and explores possible future directions

Public Sector Reforms in Developing Countries Charles Conteh, Ahmed Shafiqul Huque, 2014-04-03 The underpinning assumption of public management in the developing world as a process of planned change is increasingly being recognized as unrealistic In reality the practice of development management is characterized by processes of mutual adjustment among individuals agencies and interest groups that can constrain behaviour as well as provide incentives for collaborative action Paradoxes inevitably emerge in policy network practice and design The ability to manage government departments and operations has become less important than the ability to navigate the complex world of interconnected policy implementation processes Public sector reform policies and programmes as a consequence are a study in the complexities of the institutional and environmental context in which these reforms are pursued Building on theory and practice this book argues that advancing the theoretical frontlines of development management research and practice can benefit from developing models based on innovation collaboration and governance The themes addressed in Public Sector Reforms in Developing Countries will enable public managers in developing countries cope in uncertain and turbulent environments as they seek optimal fits between their institutional goals and environmental contingencies

by the continuously expanding global financial crisis and austerity policies in some countries and is experiencing a period of increased reform activity as a result This book considers both those local governments which have adopted or moved away from New Public Management NPM modernization to something different what some commentators have labelled post NPM as well as those which have implemented other than NPM measures such as territorial reforms and democratic innovations
