This book illustrates how the weakness of public sector institutions in developing countries has deprived these nations of the capability to perform these functions and how sound administrative ethics can strengthen these institutions Administrative Ethics and Development establishes a clear and vital connection between administrative ethics successful modern economies and good democratic governments in both the industrialized and the developing countries Public Sector Reform in Hong Kong Jane C. Y. Lee, Anthony Cheung, Anthony Bing-leung Cheung, 1995 This volume brings together for the first time a collection of essays on public sector reform in Hong Kong Public sector reform has come rather belatedly to Hong Kong being launched officially since 1989 The underlying themes as well as key initiatives of the reform package are undoubtedly in line with similar reform trends prevailing in Western Europe North America and the Australasia dating from the rise of privatization policies in governments in these places since the late 1970s In Hong Kong however little discussion has taken place in the community over the government's guide public sector reform programme Even within the civil service interest in the programme has been limited to those senior officers tasked with implementing the reform measures Little is actually written on the subject which should have important implications for the future shape of public administration in Hong Kong Being the first volume of its kind in the local print this book tries to capture the basic objectives and features of public sector reform as well as raise some fundamental issues and questions for further debate The chapters are so arranged as to provide multi dimensional perspectives from local academics government officials as well as overseas experiences This book should be of interest to general readers and of particular use to students of government and public administration as well as practitioners in the field Public administration , 1996 **The Indian Journal of Public Administration** , 1998

Jain, Renu Khator, 1999 Contributed articles presented at the 17th World Congress of International Political Science Association held at Seoul Korea in 1997 **Development Management In Africa** Sadig Rasheed, David Fashole Luke, 1995 The changing role of the state in society and the economy new orientations in public sector management and reform and the growing importance of voluntary organizations and entrepreneurs have given new meaning to the concept of development management This book argues that the task of managing development in the 1990s is one of encouraging dynamic interactions among public private and voluntary institutions as well as among external agencies and donors in an effort to raise living standards and to improve economic performance Emphasizing that development is no longer solely a public sector responsibility the contributors offer a wholly new paradigm in place of the traditional concerns of public and development administration They analyze the context in which the private and voluntary sectors and people oriented initiatives have assumed their current prominence and put forward practical recommendations for sustaining linkages among public administration business administration and management practices in support of the development process in Africa BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved Public Administration and Management Innovations for Increased Popular Participation in the Design and Implementation of
