Public Manager Contemporary Challenges:

Selected Readings on Information Technology Management: Contemporary Issues Kelley, George, 2008-08-31 This book presents quality articles focused on key issues concerning the management and utilization of information technology
Provided by publisher **Governing Cities in a Global Era** R. Hambleton, 2007-11-26 This book is about the role that ideas institutions and actors play in structuring how we govern cities and more specifically what projects or paths are taken Global changes require that we rethink governance and urban policy and that we do so through the dual lens of theory and practice

The Revival of Private Enterprise in China Shunfeng Song, 2016-02-24 The re emergence of private enterprises is one of the most important factors in China's recent economic development They will play a key role in maintaining China's high growth rate and honouring its commitments to the WTO Despite this they face obstacles to growth including borrowing restrictions high taxes ineffective legal protection and lack of technical and information support The authors in this book discuss these obstacles and propose measures for improving private enterprise development They consider how private enterprises can help China mitigate its macroeconomic problems such as unemployment income inequality financial disintermediation and cyclical boom and bust Finally they examine the lessons to be learnt from other countries in promoting privatization Heritage in the Context of Globalization Peter F. Biehl, Christopher Prescott, 2012-12-15 This brief is the

proceedings of two roundtables and forums organized by Eszter B. Nagy, Peter Biehl, Douglas Comer and Christopher Prescott and sponsored by the European Association of Archaeologists EAA and the Society for American Archaeology SAA held at the 76th SAA annual conference in Sacramento in April 2011 and the 17th EAA annual conference in Oslo in September 2011 The book is organized around five main issues with the goal to stimulate discussion research and practices within the field Traditions and legal regulations of heritage and its management The teaching of cultural heritage public outreach and university training Heritage and national identity The future of cultural heritage in a globalized and digitized world This book is thus be an exploration of the various experiences in Europe and the Americas to better understand in the vast field of archaeology and cultural heritage management where we are today where we might be and where we hope to be in the near future *Radical Challenges for Social Work Education* Jane Fenton, 2022-04-19 This book is full of ideas about how social

work education can confront the individualising and often blaming form of social work that neoliberalism ushered in four decades ago Radical social work is an approach to social work that has at its heart the departure from solely behavioural moral or psychological understanding of service users problems Social work had originally been concerned with the moral character of people in trouble usually poor people making a clear division between those who were deserving of help and those who were undeserving The rise of science and the psy disciplines then led to psychological explanations for the difficulties people found themselves in Both explanations for social problems moral and psychological with their narrow focus on the individual have been enjoying a renaissance in recent times with the neoliberal self sufficiency narrative moral and the

more recent focus on trauma psychological Radical social work challenges those explanations concerned as it is with the circumstances a person might find themselves in poverty poor housing poor education high crime rates and lack of opportunities of all kinds This book is a step towards resurrecting radical social work principles and it urges us to think about how social work education can be reshaped to that end Radical Challenges for Social Work Education is a significant new contribution to social work practice and theory and will be a great resource for academics researchers and advanced students of Politics Education Social Work Sociology Public Policy Development Studies Anthropology and Human Geography The chapters in this book were originally published as a special issue of the journal Social Work Education *Utilizing Technology to Manage Territories* Alla, Lhoussaine,Alj, Bouchra,Bentalha, Badr,2024-10-24 The quest for attractiveness and sustainability is a pressing concern for territories in the 21st century Cities regions and local communities must rethink their management and development strategies to address complex environmental social and economic challenges Territorial Smart Management has emerged as an innovative approach that leverages technologies like artificial intelligence the Internet of Things and blockchain to create more efficient attractive and sustainable territories Understanding how these technologies can transform territorial management optimize resources and foster collaboration to tackle contemporary challenges like urbanization climate change and competitiveness is essential for modern planning Utilizing Technology to Manage Territories provides practical tools case studies and best practices for applying smart management solutions to improve operational efficiency and socio economic inclusion This volume offers valuable insights for those seeking to navigate the future of smart and sustainable territorial management making it an essential resource for researchers policymakers consultants technology developers and students The Public Manager Donald P.
