textual analysis of Latina and the Latin Grammy award ceremony is enriched by an audience study conducted with Latina middle school students living in a San Diego town that borders Tijuana Mexico The study based on ethnographic work conducted over a two year period documents the ways in which young girls police the boundaries of Latino identity while actively consuming challenging and critiquing media that is marketed for them The diverse methodologies and interdisciplinary approach that inform this study serve to theorize the construction of Latino panethnic identity by situating Latinos as both consumers and producers of Latino oriented media
