**Stadt als lokaler Lebenszusammenhang** Annette Harth, Ulfert Herlyn, Gitta Scheller, Wulf Tessin, 2012-02-09 Städte sind neuerdings wieder vermehrt Gegenstand soziologischer Forschung. Dies ist Anlass der vorliegenden kritischen Bilanzierung von deutsch und englischsprachigen Gemeindestudien über Städte. Vier eigene Untersuchungen der neuen Stadt Wolfsburg in einem Zeitraum von mehr als 50 Jahren bilden den Hintergrund einer Auseinandersetzung mit Potenzialen und Begrenzungen des Gemeindestudien-Ansatzes. Erörtert wird, welchen Beitrag zum Verständnis der Stadt als einem lokalen Lebenszusammenhang Gemeindestudien geleistet haben und welche Perspektiven ihnen zukünftig zukommen können.

*Women, Social Leadership, and the Second World War* James Hinton, 2002-11-21 The associational life of middle class women in twentieth century England has been largely ignored by historians. During the Second World War women's clubs, guilds and institutes provided a basis for the mobilization of up to a million women, mainly housewives, into unpaid part-time work. Women's Voluntary Service, which was set up by the Government in 1938 to organize this work, generated a rich archive of reports and correspondence which provide the social historian with a unique window into the female public sphere. Questioning the view that the Second World War served to democratize English society, James Hinton shows how the war enabled middle class social leaders to reinforce their claims to authority. Displaying character through their voluntary work, the leisured women at the centre of this study made themselves indispensable to the war effort. James Hinton delineates these continuities of class, reconstructing intimate portraits of local female social leadership in contrasting settings across provincial England: towns large and small, shire counties, the Durham coalfield, tracing complex and often acerbic rivalries within the voluntary sector and uncovering gulfs of mutual distrust and incomprehension dividing publicly active women along gendered frontiers of class and party. This study reminds us how much Britain's wartime mobilization relied on a Victorian ethos of public service to cope with the profoundly un-Victorian problems of total war. The women's associations so evocatively explored here reached the apex of their effectiveness during the Second World War, sustaining an uneasy balance between voluntarism and the expanding power of the state. In the longer term, female social leaders found themselves marginalized by bureaucracy and professionalization. The stories told here demonstrate that the Second World War changed English society far less than is often assumed. It was not until the 1950s and 1960s that practices and attitudes laid down in the nineteenth century finally lost their purchase.

**Power, Persistence and Change**, 1975 About Britain Tim Cole, 2021-06-10 A captivating glimpse of Britain then and now seen from behind the steering wheel. In 1951 the Festival of Britain commissioned a series of short guides they dubbed handbooks for the explorer. Their aim was to encourage readers to venture out beyond the capital and on to the roads and the by-roads to see Britain as a living country. Yet these thirteen guides did more than celebrate the rural splendour of this island nation; they also made much of Britain's industrial power and mid-century ambition, her thirst for new technologies, pride in manufacturing and passion for exciting new ways to travel.

by road air and sea Armed with these About Britain guides historian Tim Cole takes to the roads to find out what has changed and what has remained the same over the 70 years since they were first published From Oban to Torquay Caernarvon to Cambridge he explores the visible changes to our landscape and the more subtle social and cultural shifts that lie beneath In a starkly different era where travel has been transformed by the pandemic and many are journeying closer to home About Britain is a warm and timely meditation on our changing relationship with the landscape industry and transport As he looks out on vineyards and apple orchards power stations and slate mines vast greenhouses and fulfilment centres for online goods Cole provides an enchanting look at twentieth and early twenty first century Britain British Gods Steve Bruce,2020-08-28

The big picture is well known over the last century religion in Britain has lost power popularity and plausibility Here Steve Bruce charts the quantifiable changes in religious interest and observance over the last fifty years by returning to a number of towns and villages that were the subject of detailed community studies in the 1950s and 1960s to see how the status and nature of religion has changed Drawing on both detailed data on baptism rates church weddings church attendance and the like and on his extensive fieldwork he considers the broader picture of religion today the status of the clergy the churches attempts to find new roles links between religion and violence and the impact of the charismatic movement Along the way Bruce encounters and engages with the contemporary rise of secularism considering our everyday secular tensions with religion arguments over moral issues such as abortion and gay rights the effect of social class on belief the impact of religion on British politics and the ways that local social structures strengthen or weaken religion Analysing the obstacles to any religious revival he explores how the current stock of religious knowledge is so depleted religion so unpopular and committed believers so scarce that any significant reversal of religion s decline in Britain is unlikely **Researching Families and Communities** Rosalind Edwards,2008-04-29

Recent years have seen a concern with how family and community relationships have changed across the generations whether for better or worse and particularly how they have been affected by social and economic developments But how can we think about and research the nature of the present in relation to the past and vice versa Researching Families and Communities Social and Generational Change explores the concepts and perspectives that guide research and the methods used to explore change during the last half of the twentieth century and into the new millennium It highlights the complexities of continuities alongside change the importance of the perspectives that shape investigation and the need to engage with situated data This edited text includes contributions from experts in their field who address these overarching trends explore the possibilities and practice of secondary analysis or replication studies as well as longitudinal large scale data sets discuss varied aspects of family and community life including sexuality ethnicity parenting resources older people intergenerational family life solo living and many others This book will appeal to academics and students interested in family and community across a range of social science disciplines and to those in the social research field **Victorian Banbury** Barrie Stuart Trinder,1982 Urbanism Past & Present ,1976 **Knowing the Poor** Bryan
