Power Modernity And Sociology Selected Sociological Writings:

Power, Modernity, and Sociology Raymond Aron, 1988 *Power Modernity and Sociology* comprises an important selection of Raymond Aron's essays four of which are published here in English for the first time French Post-War Social Theory Derek Robbins, 2012 French social and philosophical thought has played a very significant role in the development of European and American social theory This detailed timely book provides a map of the production and reception of French social thought within a global sociological context Critically comparing the work of five key theorists Derek Robbins examines how their ideas were produced and received before persuasively setting out the key differences between their philosophical and ideological positions The book sensitively traces the cross currents of social theory and confidently leads the reader through the complex foundations of Western social thought Each chapter represents a textual analysis of the production of a critical intellectual and focuses upon the work of Althusser Foucault Aron Lyotard and Bourdieu Hannah Arendt, Totalitarianism, and the Social Sciences Peter Baehr, 2010-03-11 This book examines the nature of totalitarianism as interpreted by some of the finest minds of the twentieth century It focuses on Hannah Arendt's claim that totalitarianism was an entirely unprecedented regime and that the social sciences had integrally misconstrued it A sociologist who is a critical admirer of Arendt Baehr looks sympathetically at Arendt's objections to social science and shows that her complaints were in many respects justified Avoiding broad disciplinary endorsements or dismissals Baehr reconstructs the theoretical and political stakes of Arendt's encounters with prominent social scientists such as David Riesman Raymond Aron and Jules Monnerot In presenting the first systematic appraisal of Arendt's critique of the social sciences Baehr examines what it means to see an event as unprecedented Furthermore he adapts Arendt and Aron's philosophies to shed light on modern Islamist terrorism and to ask whether it should be categorized alongside Stalinism and National Socialism as totalitarian

Vilfredo Pareto's Contributions to Modern Social Theory Christopher Adair-Toteff, 2023-10-02 This volume seeks to restore Vilfredo Pareto to his rightful place in the history of social and economic thought bringing together studies by leading scholars to mark the centenary of his death in 1923 Assessing Pareto's many contributions to the social sciences and his unique integration of the disciplines of sociology politics and economics it addresses the relative neglect of Pareto's work and explores both his continuing relevance to social research and the influence of his thought on subsequent developments in sociology and social theory As such it will appeal to scholars across the social sciences with interests in the history of sociology and the importance of Pareto's thought *The Morals of the Market* Jessica Whyte, 2019-11-05 The fatal embrace of human rights and neoliberalism Why did the rise of human rights in the 1970s coincide with the institutionalisation of neoliberalism And why has the neoliberal age also been the age of human rights Drawing on detailed archival research on the parallel histories of human rights and neoliberalism Jessica Whyte uncovers the place of human rights in neoliberal attempts to develop a moral framework for a market society In the wake of World War Two neoliberals saw demands for new rights to

social welfare and self determination as threats to civilisation Yet rather than rejecting rights they developed a distinctive account of human rights as tools to depoliticise civil society protect private investments and shape liberal subjects Honing in on neoliberal political thought Whyte shows that the neoliberals developed a stark dichotomy between politics conceived as conflictual coercive and violent and civil society which they depicted as a realm of mutually beneficial voluntary market relations between individual subjects of rights In mobilising human rights to provide a moral language for a market society neoliberals contributed far more than is often realised to today s politics of human rights

Theorizing European Societies Marinus Ossewaarde,2013-08-21 Explores key sociological concepts and theory in relation to European crises identity inequality and social order It offers a firm understanding of the modernization of Europe and everyday European life while not neglecting the historical context Essential reading for students of sociology in European contexts **Zeitschrift für Unternehmensgeschichte** ,1998 Fifty Key Thinkers in International Relations Martin Griffiths,2013-03-07 First Published in 1999 Routledge is an imprint of Taylor Francis an informa company

The Sociology of Politics William Outhwaite,Luke Martell,1998 This scholarly collection presents some of the most important classical and contemporary texts of relevance to political sociology Volume I offers an overview of the sociological approach to the concepts of power and the state it examines state theory in the 1970s from both a Marxist and Capitalist point of view the recent shift of political power from the state to other areas of society this issue of citizenship and the welfare state Volume II focuses on the most important political formations and processes in modern societies democracy revolution and totalitarianism It also looks more broadly at political processes in non industrial societies and at recent historical and sociological analyses of global political systems Volume III offers analyses of the principal political ideologies and movements of the twentieth century Other topics covered include military power and regimes and the social bases of politics such as classes and elites ethnicity gender and religion
