Theories of Power and Domination Angus Stewart, 2001-03-20 Power and domination are central concepts in social science yet up to now they have been undertheorized This wide ranging book guides students through the complexities and implications of both concepts It provides systematic accounts of current debates about the dynamics and rationale of state power in an era of globalization social citizenship and the significance of social movements The contributions of Parsons Giddens Foucault Mann Arendt Habermas and Castells are clearly set out and critically assessed *Balance of Power* T. V. Paul, James J. Wirtz, Michel Fortmann, 2004 Since the sudden disappearance of the Soviet Union many scholars have argued that the balance of power theory is losing its relevance This text examines this viewpoint as well as looking at systematic factors that may hinder or favour the return of balance of power politics *Power Over Power* David Nyberg, 1981

Political science and changing politics Philip van Praag, 2017-09-02 This book is an introduction to political science What is it that political scientists are actually studying Or to put it another way What do we mean when we talk about politics Politics is about conflict struggle decision making power and influence But not every conflict and not every situation in which power is exercised is widely regarded as politics A football coach who decides to leave a player on the

bench because he has given him a bit of lip is exerting power and there is conflict here too However few people would consider this a political issue The same applies to a mother who quarrels with her adolescent daughter about going to a house party a schoolteacher who gives a student detention and so on But if we were to limit our understanding of politics to official decisions that are taken by governments in parliaments or on municipal councils we would fail to recognise the political meaning of trade unions lobbyists protest groups corporations and other more or less organised groups that influence collective decision making *Hansard's Parliamentary Debates* Great Britain.
