The collection explores overarching themes of discipline, routine, and personal development, skillfully blending essays of philosophical musings with practical guidance. This assortment masterfully captures the zeitgeist of an era where cultivating the mind and body was seen as intertwined pursuits. This anthology harmonizes traditions of the literary and sporting worlds, shedding light on how these figures shaped and were shaped by the burgeoning cultural movements of their time. *Sleep Fictions* Hannah L. Huber, 2023-11-21 The literary response to the dawning cult of wakefulness. A turn of the century influx of new technologies and the enormous impact of the electric light transformed not only individual sleeping habits but the ways American culture conceived and valued sleep. Hannah L. Huber analyzes the works of Henry James, Edith Wharton, Charles Chesnutt, and Charlotte Perkins Gilman to examine the literary response to the period's obsession with wakefulness. As these writers blurred the separation of public and private space, their characters faced exhaustion in a modern world that permeated every moment of their lives with artificial light, traffic noise, and the social pressure to remain active at all hours. The implacable cultural clock and constant stress over physical limitations had an even greater impact on marginalized figures. Huber pays particular attention to how these writers rebutted Americans' confidence in the body's ability to conquer sleep with vivid portraits of the devastating consequences of sleep disruption and deprivation. The author also provides a website and text visualization tool that offers readers an interdisciplinary deconstructed analysis of the book's primary texts. *Werner's Magazine*, 1894 *Still Growing* Donald Capps, 2015-03-26 The later adult years are commonly viewed as a period in which one struggles to maintain a vestige of the physical, mental, and emotional

vitality of one's earlier years In *Still Growing* however Donald Capps shows that older adulthood is actually a period of growth and development and that a central feature of this growth and development is the remarkable creativity of older adults This creativity is the consequence of the wisdom gained through years of experience but is also due to a newly developed capacity to adapt to unprecedented challenges integral to the aging process In Part 1 Capps illustrates the challenges of transitioning to older adulthood from the author's own experiences while in Part 2 he draws on material from Erik H Erikson Sigmund Freud and Paul W Pruyser to account for longevity adaptability and creativity in older adults Finally in part 3 he focusses on the work of both William James and Walt Disney to fashion a model of creative aging

Discords George Egerton, 1894 *As a Matter of Course* Annie Payson Call, 1894 Let any one who is ruled by moods in a moment when he is absolutely free from them take a good look at all past moody states and he will see that they come from nothing go to nothing and are nothing Indeed that has been and is often done by the moody person with at the same time an unhappy realization that when the moods are on him they are as real as they are unreal when he is free To treat a mood as a good joke when you are in its clutches is simply out of the question
