Intelligent knowledge based systems in electrical power engineering J.R. McDonald, Stephen McArthur, Graeme Burt, Jerry Zielinski, 2012-12-06 Intelligent Knowledge Based Systems in Electrical Power Engineering details how intelligent applications can be used in the power industry The book gives a general and historical overview of intelligent knowledge based systems IKBS and artificial intelligence AI and a broad analysis of the application of these techniques in the electrical power industry It includes chapters on forecasting and

planning in power systems design of electrical plant and systems IKBS in condition monitoring alarm processing event and fault diagnosis and an analysis of future trends in IKBS for power engineering No previous knowledge of IKBS is assumed but an appreciation of electrical transmission and distribution systems would be useful **Expert Systems** John Durkin,1994 Presents a step by step methodology for designing expert systems Each chapter on design methodology starts with a problem and leads the reader through the design of a system which solves that problem

Underwater Acoustic Data Processing Y. T. Chan,2012-12-06 This book contains the papers that were accepted for presentation at the 1988 NATO Advanced Study Institute on Underwater Acoustic Data Processing held at the Royal Military College of Canada from 18 to 29 July 1988 Approximately 110 participants from various NATO countries were in attendance during this two week period Their research interests range from underwater acoustics to signal processing and computer science some are renowned scientists and some are recent Ph D graduates The purpose of the ASI was to provide an authoritative summing up of the various research activities related to sonar technology The exposition on each subject began with one or two tutorials prepared by invited lecturers followed by research papers which provided indications of the state of development in that specific area I have broadly classified the papers into three sections under the titles of I Propagation and Noise II Signal Processing and III Post Processing The reader will find in Section I papers on low frequency acoustic sources and effects of the medium on underwater acoustic propagation Problems such as coherence loss due to boundary interaction wavefront distortion and multipath transmission were addressed Besides the medium corrupting noise sources also have a strong influence on the performance of a sonar system and several researchers described methods of modeling these sources

Expert Systems in Business Michael L. Barrett,Annabel C. Beerel,1988 **AIME 89** Jim Hunter,John Cookson,Jeremy Wyatt,2012-12-06 The Second European Conference on Artificial Intelligence in Medicine followed the successful meeting in Marseilles in 1987 As for AIME 87 the goal of AIME 89 was to promote scientific interchange within and between all subfields of AI in medicine among researchers from all over the world and especially from Europe There were sessions on knowledge elicitation and acquisition architectures for medical knowledge based systems clinical applications methodology reasoning based on physiological models and uncertainty It is clear from the quality of papers presented that the rate of development which took place between the Pavia meeting of 1985 and AIME 87 has been well maintained With the launch of the European Community's exploratory programme in Advanced Informatics in Medicine in Europe 1989 is clearly a very important year for this discipline AIME 89 provided an important forum which demonstrated progress in some of the more difficult methodological problems and advances in the application of these techniques to real world medicine This volume should be consulted by anyone who wishes to appreciate the state of the art in Medical AI in Europe
